ABSTRACT

This curriculum guide to economics, advanced placement microeconomics and advanced placement macroeconomics in Fort Worth (Texas) schools contains the following materials: a statement of philosophy and broad goals for each content area; objectives organized around broad content goals or strands that define specific expectations for students, prekindergarten through grade 12; scope and sequence charts; instructional planning guides that include suggested teaching activities; sample units that show the instructional planning/thinking processes used by teachers; and bibliographies, annotated lists of school and community resources, reading lists, and additional supplementary materials. "Today's schools shape tomorrow's society."

"The challenge... is to prepare all students to participate in further education and to become productive employees..."

"The curriculum is the tool through which we must equip students for success in a complex and changing world."

Today's schools shape tomorrow's society. In two short decades, our secondary and elementary students will be the citizens, scholars, scientists, and leaders determining the destiny of our country and our world.

The challenge facing educators, then, is to prepare all students to participate in further education and to become productive employees in the workplace. This challenge includes planning and delivering instruction which results in broad and widespread achievement of the core curriculum by all students.

The curriculum is the tool through which we must equip students for success in a complex and changing world. Graduates of our schools must be able to use the intellectual tools they have acquired in school in order to participate intelligently in our democracy, enjoy lifelong learning, and make a living in a competitive world where the most sought after talents are learning, thinking, and self-discipline.

In addition to the delivery of a strong curriculum, the challenge can be met through improved access to educational opportunities, higher expectations for students, and expanded school-community-parent partnerships.

Don R. Roberts
Superintendent of Schools
August, 1990

To The Teacher:

"This curriculum guide represents a reconciliation of curriculum and the limits of time."

This curriculum guide represents a reconciliation of curriculum content and the limits of time. Its purposes are to promote greater student achievement through alignment of the written, the taught, and the tested curriculum; and to promote broader and higher levels of thinking through objectives, and strategies which integrate content and cognition.

Teachers and staff have worked to define the curriculum for the Fort Worth Independent School District. Their efforts have resulted in the production of this document which includes

"...this document includes a statement of philosophy and broad goals... objectives...scope and sequence... instructional planning guides which include teaching activities... [and] sample units..."

- a statement of **philosophy** and broad **goals** for each content area. These should help guide curricular decisions and articulate the district's aspirations for students as a result of their participating in a program or programs.
- **objectives** organized around broad content goals or strands. These define more specific expectations for students in each subject or course, prekindergarten through Grade 12.
- **scope and sequence** charts which display the core content of a subject or course and how this content develops over the span of various instructional levels.
- **instructional planning guides** which include suggested **teaching activities, assessment types,** and **reteaching** and **enrichment** ideas.
- sample **units** which show the instructional planning process or the kind of thinking that teachers engage in as they plan instruction.
- **bibliographies,** annotated lists of school and community **resources, reading lists,** and other supplementary materials.

"Use the guide as a resource for instructional planning and reference its use in both lesson plans and grade books."

Your role in the successful use of this guide is crucial. Use the guide as a resource for instructional planning and reference its use in both lesson plans and grade books. We hope you will join the collaboration by contributing ideas for activities, assessments, and units as well as by responding to the appropriateness and utility of this document. Response forms are included to facilitate this process.

We acknowledge the contributions of curriculum writing teams and the leadership of program staff without whom this guide would not have been possible. We appreciate, also, the desktop publishing skills and expertise of the Office of Curriculum Production and Distribution in formatting and printing this publication.

FORT WORTH INDEPENDENT SCHOOL DISTRICT

MISSION STATEMENT

The mission of the Fort Worth Independent School District is to prepare students to assume economic, social, civic, and cultural responsibilities in a complex and changing society. This requires the provision of a well-balanced curriculum for all students that assures mastery of the basic skills of literacy, mathematics, and critical thinking. In addition to establishing this broad intellectual base, the district must provide opportunities for all students to develop attitudes and skills that promote mental, physical, and emotional fitness; economic and occupational proficiency; an appreciation for the aesthetic; and lifelong learning.

GOALS

Goal 1 **STUDENT PERFORMANCE**--All students will be expected to meet or exceed stated educational performance standards of high achievement, master the essential elements, and participate in appropriate school programs.

Goal 2 **CURRICULUM**--Offer a well-balanced curriculum in order that students may realize their learning potential and prepare for productive lives.

Goal 3 **QUALITY TEACHING AND SUPERVISION**--Ensure effective delivery of instruction.

Goal 4 **ORGANIZATION AND MANAGEMENT**--Provide organization and management which will be productive, efficient, and accountable at all levels of the educational system.

Goal 5 **FINANCE**--Provide adequate and equitable funding to support quality instructional programs and quality schools.

Goal 6 **PARENT AND COMMUNITY INVOLVEMENT**--Improve schools by involving parents and other members of the community as partners.

Goal 7 **INNOVATION**--Improve the instructional program through the development and use of alternative delivery methods.

Goal 8 **COMMUNICATIONS**--Provide consistent, timely, and effective communication among all public education entities and personnel.

ACKNOWLEDGMENTS

To ensure broad-based participation in the development of this document, curriculum writing teams were composed of teachers representing a cross section of the Fort Worth Independent School District. In addition, various curriculum components were validated through sampling procedures involving the entire district. This document, therefore, is the result of the efforts and collaboration of many teachers and administrators.

The Social Studies Department gratefully acknowledges the contributions of persons who served on curriculum writing committees as well as those who participated in the validation process. Members of the curriculum writing committees are as follows:

SOCIAL STUDIES EDUCATION
GRADES PK-12

> *We can chart our future clearly and wisely only when we know the path which has led to the present.*
>
> --Adlai Stevenson (1952)

PHILOSOPHY

The social studies program assumes responsibility for some of the major purposes of education: recognizing the diversity of cultural heritage and improving our society through the preparation of students for responsible citizenship. This means that the program must produce individuals who possess a working knowledge of the economic, geographic, cultural, political, and social factors that make up the human ecosystem. Students must also understand, experience, and gain appreciation for the principles of democracy, rule of law, fair play, the work ethic, and civic responsibility. Without a conscious effort to teach and learn these things, a free republic can not endure. Thus, a priority for the social studies program is to ensure the survival of the United States as a free nation through the development of enlightened democratic citizens. Social studies education is, therefore, centrally concerned with the teaching of citizenship and government.

Enlightened citizens have a knowledge of their past. Such knowledge informs and builds on the strengths of the past and avoids the repetition of its errors. Social studies education, then, is concerned with history. An emphasis on the chronology of history does not negate a thematic approach to the other social sciences but builds upon the interrelationships existing among the disciplines.

Social studies education is likewise concerned with geography. It begins with place awareness and knowledge of physical characteristics and leads to awareness of the decision-making process in relation to the environment. Responsible citizenship presumes an ability to participate effectively at local, state, national, and international levels. Social studies education must prepare students for informed economic decision making based on the ability to analyze the operations, benefits, and limitations of our free enterprise system. Finally, recognizing the multi-ethnic population of our society leads to an awareness of our cultural diversity. Shared cultural knowledge is important because it is basic to an understanding of our pluralistic society.

PHILOSOPHY continued

Students must be able to understand and function in an ever changing, complex world of interdependence. They must be prepared to work creatively, aesthetically, and ethically toward the resolution of human problems. This ability depends on the nurturing of favorable attitudes and a general and widespread proficiency in basic intellectual as well as participatory skills. Social studies education, therefore, is concerned with multi-cultural studies, critical thinking and decision-making skills, and integrating these skills into the total program.

SOCIAL STUDIES EDUCATION
GRADES PK-12

RATIONALE AND PURPOSE

The purpose of this guide is to provide teachers a tool for planning instruction in social studies which is targeted toward local goals and objectives as well as to the Texas Education Agency essential elements. This document is not designed to be restrictive; rather, it should assist teachers in making instructional decisions which will result in the mastery of objectives by all students.

This guide has been prepared to serve the social studies program in the following ways:

- Improve curriculum, instructional planning, and decision making
- Provide criteria for the selection of textbooks, supplemental instructional materials, and assessments
- Communicate curriculum content to educators and the community
- Provide instructional strategies for PK-12 articulation

SOCIAL STUDIES EDUCATION
GOALS

The student will:

1. **Recognize** the past, present, and future consequences and/or implications of geography, history, economics, politics, and other social science disciplines on humankind.

2. **Demonstrate** an understanding that people and the environment are interrelated.

3. **Demonstrate** a global awareness and understanding of world-wide interdependence.

4. **Demonstrate** an awareness, appreciation, and acceptance of cultural diversity.

5. **Demonstrate** an awareness and basic understanding of social problems, concerns, and issues.

6. **Demonstrate** an understanding of and support for the democratic process.

7. **Assume** economic, civic, and cultural responsibilities.

8. **Apply** problem-solving techniques to real-life situations.

9. **Demonstrate** effective communication skills in order to function in a global society.

10. **Integrate** and apply concepts from various social science disciplines.

OBJECTIVES

THE LEARNER WILL:	ESSENTIAL ELEMENTS	
	CONTENT	A/V/S**
A. Strand 1 American Free Enterprise		
1. Describe the problem of scarcity and identify its impact on economic decision making	1A,E,F,H	3A-C
2. Identify the basic types of business organizations and discuss the role of labor in the economy	1F,G	4A-M
3. Describe the role of the market mechanism in solving the fundamental problem of scarcity	1B,C,H,I	
4. Identify characteristics, benefits, and goals of our economic system	1A,F	3A-J
B. Strand 2 Government in the Economic System		
1. Analyze the ways, including both costs and benefits, the government protects and regulates the operations of the market system	2A,D	3F,G
2. Explain the phases of the business cycle and describe policies used to relieve unacceptable conditions	1D	
3. Examine the processes and consequences of the government's budget	2B	
4. Describe the functions of the central banking system	2C	
5. Evaluate the economic performance of monetary and fiscal policies	2E	
C. Strand 3 American Economic System and International Economic Relations		
1. Compare and contrast economic systems	3A	4F-J,L,M
2. Describe the impact of international trade on the U. S. economy	3B	1A-C
D. Strand 4 Consumer Economics		
1. Define basic consumer terminology	4D	
2. Explain consumer rights and responsibilities	4A	2A-L
3. Examine market conditions and agencies that affect consumers	4B	3A-J
4. Examine the income tax system	4E	
5. Examine the impact of credit and savings	4C

A. STRAND 1: AMERICAN FREE ENTERPRISE

OBJECTIVE 1: DESCRIBE THE PROBLEM OF SCARCITY AND IDENTIFY ITS IMPACT ON ECONOMIC DECISION MAKING

Resources

Textbook, Economics: *Free Enterprise in Action*
Student Handouts

Overhead Transparency

TEACHING ACTIVITY:

1. Direct discussion regarding the rational procedure for decision making.
   a. Introduce the activity with a decision to be made that is relevant to students. Use the handout, "Should Willie Work Part-time?"
   b. Have students identify what resource is scarce in this situation.
   c. Using overhead transparency, review the steps of rational decision making and direct students to apply Willie's situation to each step.
2. Direct students to apply their answers from the discussion activity to the grid which they have been given. Use the overhead transparency to familiarize students with this activity.
3. Allow students to practice the decision-making model by working in small groups to complete the decision-making grid.
   a. For this activity, students will use the handout, "Cassandra Goes to College."
   b. Give blank grid to each group for them to complete.
   c. Class will discuss conclusions of each group.

Assessment: Applying the rational decision-making model, students will apply a problem or decision to be made to the decision-making grid. By completing this activity, students will demonstrate how scarcity impacts the economic decision making of all individuals.

RETEACHING ACTIVITY: Give students a list of situations illustrating how a scarce resource affects American society.

1. Students will identify the resource and the problem being created.
2. In small group discussion, elicit responses from students which describe the possible choices that can be made, which decision is best, and why.

Assessment: Given a list of problems created by scarce resources and a list of possible solutions, the students will match the problem with the best solution.

EXTENSION: From newspapers or magazines, students will collect one article that deals with economic choice on an international level, one that deals with economic choice on a national level, and one that deals with economic choice on a state or local level. To accompany each article, students will write a statement that explains the opportunity cost involved in the economic choice and how the concept of scarcity created the choice situation.

SHOULD WILLIE WORK PART-TIME?

What is the problem?

Willie is a junior at King High School. This year he is really strapped for money. He is thinking that he may need to find a part-time job like many of his friends. The job would help him earn some spending money. He is tired of depending on the small allowance his father gives him and of loans from his friends. (Willie's father and friends are a little tired of it, too.) The situation is complicated because Willie's work at school hasn't been going well. Willie is worried that if he works more than 20 hours a week, his grades might go down and he could risk not graduating on time. Failing to receive his high school diploma could cause serious long-term problems of getting into schools beyond high school or getting a decent job.

What are the alternatives?

Willie figures that he has three choices. First, he could take the job offered him at Frank's Fast Franks. He would work 15-20 hours each week and receive $3.50 per hour. Or, he could work at Howard's Hefty Hardware. Howard wants him to work 25 hours a week and also will pay $3.50. Or Willie could choose to make no change in his current situation.

What are Willie's criteria?

Willie is interested in making more money and becoming less dependent on his family and friends, but he doesn't want to let his grades slip.

Fill out a Decision Grid to help Willie decide.

STEPS IN MAKING DECISIONS

1. What is the problem?
   - What decision are you trying to make?

2. What are the alternatives?
   - What actions are you considering taking?

3. What are the criteria?
   - What goals do you hope to accomplish in making your decision?

4. Rank the criteria.
   - Which of your criteria are most important? Least important?
   - Rank order the criteria -- labeling the most important #1, the next important #2, and so forth.

5. Evaluate the alternatives.
   - Rank order the alternatives according to how well they meet the criteria.

6. Make a decision.
   - Which alternatives best match your highest ranking criteria?
   - What do you gain with each alternative?
   - What do you give up with each alternative?

DECISION-MAKING GRID

1. What is the problem?
2. What are the alternatives?
3. What are the criteria?
4. Rank the criteria.
5. Evaluate the alternatives.
6. Make a decision.

	Criteria					
Rank of Criteria						
Alternative 1						
Alternative 2						
Alternative 3						
Alternative 4						

Decision: _____

CASSANDRA GOES TO COLLEGE

What is the problem?

Cassandra is a senior in high school. She has decided to go to college after she graduates from Kennedy High School. She is currently thinking about majoring in English literature, but that could change. She is the oldest of three children and is the first in the family to go to college. It is a big decision for her and her family. Money, at least for the first year or two, is not a big problem. She has some money saved from the Social Security payments she has received for the last six years since the death of her father. The main problem is that she doesn't know which college is best for her.

What are the alternatives?

Cassandra and her mother agree on three. They visited each campus.

Metropolitan University
MU is a state university near Cassandra's home. It has a solid reputation for good teaching -- especially in the English Department. Some of Cassandra's friends plan to go to MU, but her closest two friends will go elsewhere. The school's tuition is modest. Cassandra could live at home, so the out-of-pocket cost of going to school would be low.

Big Main State University
BMSU is a large state university. It ranks overall as one of the top colleges in the country and is best known for programs in law and medicine. As a state-supported school, its tuition fees are modest; however, the cost of renting a dorm room and meals would be an added expense as well as the cost of travel to and from home. Cassandra's two best friends, Missy and Mariah, plan to go to BMSU.

Essex University
EU is a small liberal arts school with a good reputation. Its English literature department is known to be first-rate. Essex is located in a nearby state; the cost of tuition is very high. None of Cassandra's friends plan to attend EU.

What are Cassandra's criteria?

Cassandra has given it a lot of thought. She has come up with four criteria that she thinks are most important to her. First, she knows that because her funds are limited, tuition costs are an important factor. Second, while she would not mind living at home, Cassandra thinks she would prefer to be more independent. Third, Cassandra likes her friends and would like to attend the same school that they choose. Finally, Cassandra would like to be sure that the professors really know their subjects and care about their students.

Use the Decision Grid and Cassandra's criteria to help decide what you think Cassandra should do.

OBJECTIVE 1: DESCRIBE THE PROBLEM OF SCARCITY AND IDENTIFY ITS IMPACT ON ECONOMIC DECISION MAKING

Resources

Textbook, *Economics: Free Enterprise in Action*

Student Handouts

TEACHING ACTIVITY:

1. The students will copy on their papers from the chalkboard the following terms:
   a. goods
   b. services
   c. scarcity
   d. economic decision making

   Based on class discussion, a definition will be decided for each term and written on the chalkboard for students to copy.

2. Students will complete the handout on parent and individual economic decisions.

3. Students will write a short paragraph on economic decisions and the problem of scarcity, and will read and discuss with classmates.

Assessment: Students will complete the handout based on class discussion and selected readings.

Student Handouts

RETEACHING ACTIVITY: Provide each student with a different question from the Teaching Activity handout. Each student, after reading the question, will take turns answering to the group. Correct, confirm, or elaborate student's answers as indicated.

Assessment: Students will answer the questions presented in the reteaching assessment handout.

Local newspapers

EXTENSION: Using the local newspaper, students will cut out three stories involving the scarcity concept. They will answer the following questions for each story:

1. What good or service is limited?
2. What problem does the article find concerning scarcity?
3. What solution, if any, does the writer offer to remedy the problem?

Students will discuss their stories and answers among members working on this extension activity.

PARENT AND INDIVIDUAL ECONOMIC DECISIONS

Parents' Daily Economic Decisions	_____ (student's name) Daily Economic Decisions

ECONOMIC DECISIONS AND SCARCITY

Information helps people make decisions in their economic activities. A friend tells you that brand *X* radio is better than any other in the world. He says he knows because a "thousand" of his friends have brand *X* radios.

Write a short paragraph to explain how an economic decision could or could not add to the problem of scarcity.

SCARCITY AND DECISION MAKING

Directions: Briefly write the answers to the following questions about the lesson on scarcity and decision making.

1. What is scarcity?

2. Why is scarcity a problem?

3. What is meant by economic decision making?

4. What are some economic decisions that your parents make everyday?

5. What are some economic decisions that you make each day?

6. How can your economic decisions add to the problem of scarcity?

7. Define goods. Give an example.

   Define services. Give an example.

SCARCITY AND DECISION MAKING

I. Decide whether each item represents goods or services.
Write G for *goods* or S for *services* in the blanks.

1. _____ gasoline
2. _____ teaching
3. _____ haircut
4. _____ bus driving
5. _____ hamburger
6. _____ a check up at the doctor
7. _____ blue jeans
8. _____ jewelry repair

II. Match Column A with Column B. Write the letter in the blank.

Column A	Column B
_____ 1. goods	A. limitation on the availability of things
_____ 2. scarcity	B. actual things that people use
_____ 3. services	C. activities that satisfy human wants and needs

III. List 3 economic decisions you make each day.

A.

B.

C.

IV. Explain to your teacher orally in your own words why scarcity is a problem and how it affects decision making.

ECONOMICS IA

A. STRAND 1: AMERICAN FREE ENTERPRISE

OBJECTIVE 2: DESCRIBE THE ROLES OF BUSINESS AND LABOR IN THE AMERICAN ECONOMY

Resources

Textbook, Economics: *Free Enterprise in Action*

TEACHING ACTIVITY:

1. Lead a brainstorming session during which class members will state all of the roles labor and business play within the American economy.
2. Students will use the information generated during the brainstorming session to create a matrix in which they categorize the roles played by both sectors.
3. Students will view video "Wages and Production."
4. Students will give oral presentations to the class based on their research and formal papers.
5. Students will write an essay in which they describe both the role of labor and business in the American economic system.

Video: Wages and Production

Assessment: Students will write a research paper in which they select one of the following topics:

1. The growth of the service industry in the American economy from 1970 to the present and the contributions of this industry to American society.
2. Select one major US company, trace its growth, and describe its impact on American society.
3. Trace the history of American labor unions and identify the current trends in the labor sector of the American economy.

RETEACHING ACTIVITY: Given a list of roles that labor and business perform in the American economic system, the students will match each with the correct group.

Assessment: Students will create a collage which illustrates the roles of both business and labor. Students should also label pictures and identify the sector and the role performed.

EXTENSION: Have students work in groups of four and list the advantages and disadvantages of corporate combinations. Students will debate the pros and cons in a class discussion.

ECONOMICS IA

A. STRAND 1: AMERICAN FREE ENTERPRISE

OBJECTIVE 2: DESCRIBE THE ROLES OF BUSINESS AND LABOR IN THE AMERICAN ECONOMY

Resources

Textbook,
Economics: Free Enterprise in Action
pp. 98-118
pp. 142-162
Student Handouts

TEACHING ACTIVITY A:

1. Read and discuss with students Chapter 5 in the textbook. Have students keep a vocabulary log of the terms introduced in the chapter. (See p. 98, "Terms to Know.")
2. At the end of each section, students will answer the teacher-prepared questions. (See handout, Teaching Activity A.)

Assessment: Students will complete a matching test. (See handout, Teaching Assessment A.)

TEACHING ACTIVITY B:

1. Repeat the procedure used in Activity A using Chapter 7 in the textbook as reference.
2. Instruct students to keep a vocabulary log of terms and then to answer the teacher-prepared questions. (See handout, Teaching Activity B.)

Assessment: Students will answer five questions concerning labor in the American economy. (See handout, Teaching Assessment B.)

RETEACHING ACTIVITY: Review the terms and test questions for Chapters 5 and 7.

Assessment: Students will complete the review activities on pages 118 and 162.

EXTENSION: Students will present in chart form the differences among proprietorship, partnership, and corporation.

Students will also make a chart showing the labor force of the school he or she is attending.

EXAMPLE: 1) Male-female employment
2) Age employment
3) Job description

BUSINESS IN THE AMERICAN ECONOMY

Directions: Answer the following questions.

1. Which type of business is the oldest, simplest, and most common?

2. What are the advantages of a partnership?

3. What is the difference between stocks and bonds?

4. Name three types of business combinations.

5. What are the advantages of combinations?

6. What does *franchisee* mean?

7. Name four types of cooperatives.

BUSINESS IN THE AMERICAN ECONOMY

Directions: Match the following words with their appropriate description.

A. Sole Proprietorship

B. Partnership

C. Corporation

D. Franchise

E. Cooperative

_____ 1. A business that is owned by the people who use its services.

_____ 2. A business that is owned and controlled by two or more people.

_____ 3. A business owned and controlled by one person.

_____ 4. A contract allowing a person or group to use its name to sell goods or services.

_____ 5. A business that is treated by the law as if it were one person.

LABOR IN THE AMERICAN ECONOMY

Directions: Answer the following questions.

1. List three laws passed to fight discrimination.

2. How do consumer preferences affect labor?

3. What three things influence wage rates?

4. What are the two major types of labor unions?

5. Identify three major labor unions.

6. Name five major labor issues.

LABOR IN THE AMERICAN ECONOMY

Directions: Answer the following questions.

1. Name three things that laws protect against discrimination.

2. Why does the government set a minimum wage?

3. Name three labor unions.

4. How do labor unions help workers?

5. Give definitions for the following words:

   a. strike

   b. boycott

   c. mediation

BUSINESS IN THE AMERICAN ECONOMY

Directions: Answer the following questions with *T* for *true* or *F* for *false*.

_____ 1. A business that is owned by the people who use its services is called a cooperative.

_____ 2. A business owned and controlled by one person is called a franchise.

_____ 3. A business that is owned and controlled by two or more people is called a partnership.

_____ 4. Laws protect against discrimination due to sex, race, color, or age.

_____ 5. AFL stands for American Federation of Labor.

_____ 6. Boycott means an organized effort to stop buying a firm's product.

BONUS: Write a paragraph on how labor unions help workers.

SOCIAL STUDIES

PREREQUISITES/ENTRY CRITERIA FOR HONORS COURSES

HIGH SCHOOL

8035 Honors World History Studies IA (W HIST 1A/H)
8036 Honors World History Studies IB (W HIST 1A/H)

Fulfillment of four of the following:

- 85 or higher in prior social studies or English language arts course
- 85th percentile or higher on the social studies component of a standardized test
- teacher recommendation
- parental approval
- student interest

Grade Placement: 9-12

8065 Honors United States History IA ACT (US HIST 1A/H)
8066 Honors United States History IB ACT (US HIST 1B/H)

Fulfillment of four of the following:

- 85 or higher in prior social studies course
- 85th percentile or higher on the social studies component of a standardized test
- teacher recommendation
- parental approval
- student interest

Grade Placement: 11

8215 AP United States History Studies IA (US HIST 1A/HP)
8216 AP United States History Studies IB (US HIST 1B/HP)

Fulfillment of four of the following:

- 85 or higher in prior social studies course
- 85th percentile or higher on the social studies component of a standardized test
- teacher recommendation
- parental approval
- student interest

Grade Placement: 10-12

8136 AP American Government and Politics IA (US GOVT 1A/HP)

Fulfillment of four of the following:

- 85 or higher in prior social studies course
- 85th percentile or higher on the social studies component of a standardized test
- teacher recommendation
- parental approval
- student interest

Grade Placement: 11-12

8098 AP Economics IA (Macroeconomics) (ECO-FE 1A/HP)

Fulfillment of four of the following:

- 85 or higher in prior social studies course
- 85th percentile or higher on the social studies component of a standardized test
- teacher recommendation
- parental approval
- student interest

Grade Placement: 11-12

8099 AP Economics IB (Microeconomics) (ECO-FE 1B/HP)
Fulfillment of four of the following:
- 85 or higher in prior social studies course
- 85th percentile or higher on the social studies component of a standardized test
- teacher recommendation
- parental approval
- student interest

Grade Placement: 11-12

EXIT PROCEDURES FOR HONORS COURSES

1. At the end of the first three weeks of the course, a student-parent-teacher conference must be held for students with a course average of 80 or lower to discuss the student's academic progress. As a result of this conference

   - the student may be exited from the course and placed in another appropriate course

   or

   - a plan for the improvement of the student's performance in the course will be developed, agreed to, and implemented.

2. Prior to the end of the first six weeks of the course, a student-teacher-parent conference must be held for students failing to maintain a passing grade of 70. Options to be discussed at the conference are

   - exiting the student from the course and placement in another appropriate course

   and

   - developing a plan for the improvement of the student's performance with specific target dates for progress reports to student and parent.

Any recommendations to exit students from honors courses after the first six weeks of instruction must be considered very carefully and are to be made only after a conference which includes student, teacher, parent, and principal.

SOCIAL STUDIES TEACHING STRATEGIES

DESCRIPTION

The study of social studies is intended to help students understand the forces that shape society and bind people together in the international community in which we live. The teaching approach in social studies can be thematic, chronological, or conceptual. Any of these approaches lends itself to establishing a relationship between past and present and implications for the future.

In order to comprehend the wealth of knowledge within the broad spectrum that is social studies, students must be taught to process information in ways that maximize their learning. One way to advance student learning to optimum levels is through the thinking/writing process.

As students develop thinking/writing skills, they will begin to acquire competencies in all academic levels. Furthermore, talking, writing, and thinking must be interrelated. Rexford Brown underscores this philosophy "...higher literacies call for students to analyze, think critically, evaluate, synthesize information, communicate more effectively, solve problems, learn how to learn, and in general learn far more actively than traditionally."

Writing to Think

Writing to think is a model for teachers to help students. There are six strands to the model: *selecting information, seeing relationships, using prior knowledge, considering alternative points of view, creating and assessing a plan, and creating/acknowledging dissonance.* By using these processes, students will become proficient problem solvers through the medium of writing.

The process starts with using a unit or mini-unit social studies objective to develop a rationale or purpose for the writing/thinking instructional activities. Prior work is given to prepare the student for the writing assignment. Subsequent work and assessment are also part of this process.

The following examples indicate how these writing to think strategies can be implemented using the social studies content.

Selecting information involves choosing relevant and appropriate examples based on a given criterion.

Lead the class to a consensus regarding the qualities of a good citizen. Then view file footage that spotlights a particular person. Have the group look for actions that show that the person has/does not have these qualities.

Seeing relationships involves asking students to look for patterns or trends; to notice similarities and differences; to look for motives, purposes, or causes and effects; to locate events in a chronological or numerical sequence; or to determine how something (an object, action or, person) relates to the physical setting in which it is found.

Describe the basic economic needs of an 8-year old Cambodian and an 8-year old United States' citizen.

How did Uncle Tom's Cabin impact slavery in the United States?

Given data relative to the Alaskan oil spill at Valdez, what can you conclude about the effect on the environment?

Use a simulation that involves a dead lock situation. Work out a compromise that is acceptable to both sides.

Using prior knowledge involves using that information which students acquire either through formal or informal and personal educational experiences.

Using what you have learned about public and private property, write a paragraph that vividly describes ways that neighborhood parks are used for recreational purposes.

Considering alternative points of view involves looking at both sides of an issue and acknowledging the possibility of a point of view different from the one originally held.

How might a Mexican soldier report the Battle of the Alamo?

How would a British sea merchant describe the Boston Tea Party?

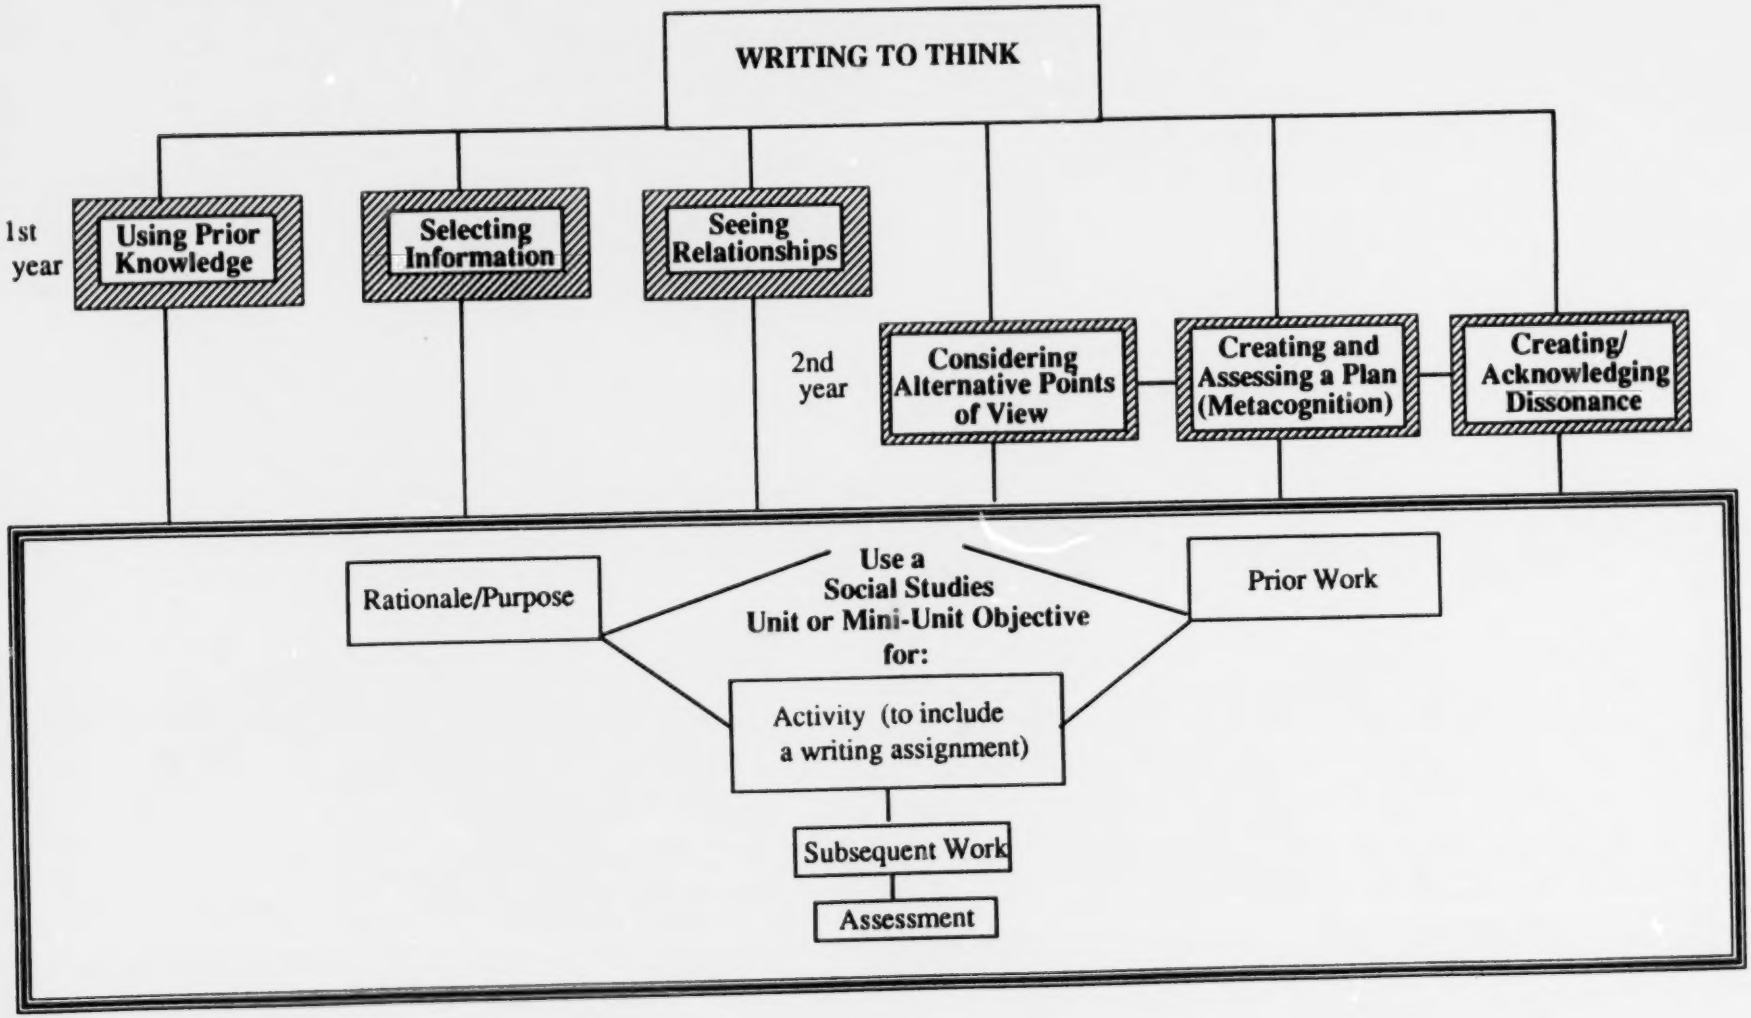
Creating and assessing a plan involves developing a problem-solving strategy to address a specific task and then assessing that strategy as one tries to use it.

Describe the steps that might be involved in a slave's escaping to freedom in the North.

Creating/acknowledging dissonance involves recognizing major conflicts of questions in events, philosophies, rulings, actions, and documents.

Explain why the premise of equality for all as stated in the Preamble to the United States Constitution and the provision that permitted slave trade through 1808 are inconsistent and in conflict.

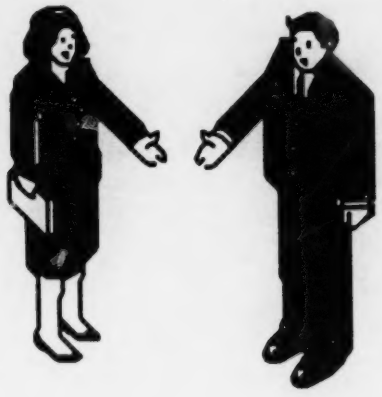
READING AND WRITING TO THINK IN SOCIAL STUDIES



TS-3

Problem-solving process

TEACHING STRATEGIES



ACTIVITY I

DEBATE - Provides practice in all of the communications
Skills: reading, writing, speaking, listening, and specially, thinking

PROCEDURE

A. Getting Started - Background Information

1. Define debate - organized argument between knowledgeable people.

2. Give students handouts with the essential terms and procedures.
   - Video tape of previous debate is desirable.
   - If not available, directions and explanations must be extremely clear.

**Activities to Promote Critical Thinking,* Fran Caldweel, Newport High School, Newport, Oregon

B. Selecting a Topic

1. Pair up students with a partner.

2. Two sets of partners are put together - thus forming the debate unit.
   - Appear to do this randomly but should actually place the stronger teams against each other

3. Students meet in their debate units to accomplish three tasks.
   - Select a current, interesting, and controversial issue
   - Write a clear resolution stated in the affirmative
   - Determine affirmative and negative teams

(Teacher may opt to supply a list of topics in an attempt to speed up process.)

C. Developing the Argument

1. Students begin their research.
   - *Readers' Guide to Periodical Literature* is the most useful reference. Other references should be made available in library.
   - Interviews applicable

2. Students should take careful notes and make sure each item of information is documented.

3. Allow five days for research process.

4. Partners plan and rehearse their cases together.
   - Two days can be allowed in class for organizing and preparing the debate speeches.

5. Affirmatives must begin by defining terms and then proceed through each stock issue.

6. Negatives must defend the status quo and attack the contentions of the affirmatives.

7. Partners should keep in mind that the strongest evidence is best presented last.

8. Students should be encouraged to write their speeches in outline form. This will discourage them from empty reading.
   - Good eye contact is necessary to be convincing.

9. During the recess, partners discuss ways to refute what the other side has said.
   - note taking during other side's arguments
   - attempt to anticipate opponent's arguments

10. Rebuttals should follow a plan and may be given by one or both partners.
    - All points made in the constructive speech should be reiterated one by one, following each by what the opponent said to disapprove it and then given more evidence to reestablish it.
    - A good rebuttal should end with a summary and a statement of the debaters' belief in the soundness of their argument.

D. Presentation

1. Debaters sit at their respective desks in front of the room.
   - Face opponents, yet the desks are slanted enough so that the audience can see the debaters' faces as well.

2. Remind students to speak in loud, clear voices with correct pronunciation and appropriate expression.

3. Strict formality is upheld: the debaters and their positions are introduced to the audience; an official timekeeper watches the clock and warn debaters nonverbally when one minute remains.
   - Only debaters are permitted to speak, except during the recess.

4. A schedule should be drawn up so students know on exactly which day they will debate.

5. Five judges should be selected from outside the class and allowed some time to familiarize themselves with the judging form.

6. Only one judge is needed for each debate.
   - Judge uses the debate form provided, which was devised by the American Forensic Association.
   - Post on bulletin board.

E. Assessment

Students can now write a persuasive essay because they have already formulated two strong thesis statements and collected a set of supporting details.

ACTIVITY II.

JURY-TRIAL TECHNIQUE - Debate technique that is excellent because it can involve a large number of the class in active participation. In this technique the class simulates courtroom procedures to discuss an issue or problem. The procedure seems to be a simple one, but it requires careful preparation if it is to go smoothly.

PROCEDURE

A. Select an issue or problem to debate. It adds interest if one of the students can act as a defendant.

B. Select lawyers, researchers, and witnesses for both sides. These groups can be as large as you wish, but if they are too large, they become cumbersome. The teacher can act as judge, or better yet, some responsible student can be named for that position. Another pupil should be selected court stenographer, or recorder, to keep a record of what transpires. All members of the class who are not lawyers, researchers, witnesses, or current officials, are the jury.

C. All students should research the problems. The lawyers and witnesses should get the facts from their own research and from that of the other class members.

D. **Conduct the trial**

1. The lawyers open up with their arguments.
2. Witnesses present their evidence.
3. Lawyers questions and cross examine
4. Lawyers from each side sum up. Each should point out how the evidence favors his/her side.
5. The judge sums up, points out errors in the arguments, fallacies, and misstatements of facts.
6. The class, acting as the jury, votes on which side won the argument.

ESSENTIAL TERMS

Controversial issue: a subject that can be argued and supported from opposing points of view.

Resolution: (sometimes called the preposition): a statement which defines the nature of the controversy, is stated in the affirmative, and provides a basis for argument for or against.

Affirmative: the person who upholds the resolution, who argues for a change in what presently exists.

Negative: the person who argues against the change proposed in the resolution, who upholds the conditions as they presently exist.

Definition of Terms: a clear explanation of the resolution, defining and limiting ideas; it is the affirmative teams responsibility, but the negative team must approve.

Evidence: the material offered as proof in an argument; it can be in the form of: (1) quotations from authorities; (2) examples of actual situations or case histories, or (3) facts and statistics.

Status Quo: a Latin term meaning the existing state of affairs, the present or the current belief and actions.

Burden of Proof: rests on the affirmative, who must prove that the status quo is unsatisfactory and that the affirmative way is better; because the affirmative has a more difficult task, this side is given the advantages of starting and ending the debate.

Stock Issues: those issues which must be proved by the affirmative (1) the need for the change, (2) the practicality of the change, (3) the desirability of the change.

Presumption: the assumption that the negative is "right" until proven wrong"

Constructive Speeches: given in the first part of the debate; they present the major arguments with evidence.

Rebuttals: given in the second part of the debate; the process of rebuilding after attack or defending from attack.

Handout #1

ORDER AND TIME RESTRICTIONS FOR DEBATE

PART ONE: Constructive Speeches

First Affirmative	2-5 minutes
First Negative	2-5 minutes
Second Negative	2-5 minutes
Second Affirmative	2-5 minutes

Recess

PART TWO: Rebuttals

Negative	5 minutes
Affirmative	5 minutes

Handout #2

ESSENTIAL ELEMENTS IN SOCIAL STUDIES
ATTITUDES, VALUES, AND SKILLS FOR CITIZENSHIP, GRADES 7-12

(1) Respect for self and others. The student shall be provided opportunities to:

(A) respect beliefs of other individuals, groups, and cultures;
(B) be aware that some things are valued more in some groups and cultures than in others;
(C) recognize how societal values affect individual beliefs and attitudes; and
(D) recognize that individuals must accept the consequences of their decisions.

(2) Democratic beliefs and personal respoonsibility. The student shall be provided opportunities to:

(A) respect the principles that underlie the Texas and the United States Constitutions, the Bill of Rights, and the Declaration of Independence;
(B) consider one's own values as well as those of others when making political decisions;
(C) value open-mindedness, tolerance of differing opinions, and civic participation as important aspects of democratic behavior;
(D) respect the laws of one's society and work responsibly to change laws that one judges to be unjust;
(E) understand the importance of individual participation in civic affairs;
(F) understand that legal rights and protections must be balanced with civic responsibilities;
(G) recognize the value of compromise in the democratic process;
(H) examine reasons that participation and decision making in civic affairs require knowledge, time, and personal efforts;
(I) identify legal rights, responsibilities, and protection afforded juveniles and adults;
(J) support the democratic processes of the republican form of government;
(K) support the basic values of American society (e.g., justice, responsibilities, freedom, respect for the law, diversity, privacy, private property rights, free enterprise, and voluntary exchange); and
(L) support the rules and laws of one's school, community, state, and nation.

(3) Support for the American economic system. The student shall be provided opportunities to:

(A) recognize the contributions of the American economic system to the standard of living of Americans;
(B) support the role of profit in the American market system;
(C) believe in the right of individuals to acquire, use, and dispose of property;

(D) support the freedom of consumers to choose how to spend their income;
(E) recognize that citizens, through legal political activities, can influence economic decisions make by government;
(F) acknowledge the role of government in regulating unreasonable restraint on competition by either producers or consumers;
(G) support competition by either producers or consumers;
(H) support competition as it affects the quantity and quality of goods and services produced;
(I) recognize that as individuals act in their own economic interest they may also serve the economic interest of others; and
(J) compare the control and treatment of public and private property.

(4) Application of social studies skills. The student shall be provided opportunities to:

(A) locate and gather information;
(B) observe for detail;
(C) translate information from one medium to another;
(D) organize and express ideas in written form;
(E) distinguish fact from opinion;
(F) analyze information;
(G) draw conclusions;
(H) synthesize information;
(I) develop criteria for making judgments;
(J) use problem-solving skills;
(K) sequence historical data and information;
(L) draw inferences; and
(M) perceive cause-effect relationships.

ESSENTIAL ELEMENTS IN SOCIAL STUDIES
ECONOMICS

(1) American free enterprise system. The student shall be provided the opportunities to:

(A) identify characteristics, benefits, and goals of the American free enterprise system;
(B) analyze how supply and demand affect prices;
(C) examine the circular flow of economic activity;
(D) relate the business cycle, deflation, and inflation with economic conditions;
(E) analyze the roles of economic incentives, voluntary exchanges, private property rights, and competition;
(F) understand the role of business in the American free enterprise system;
(G) examine the roles of labor and consumers in the American free enterprise system;
(H) relate the price mechanism to allocation of resources and distribution of income; and
(I) identify the factors of production and the income earned from each factor.

(2) Government in the American economic system. The student shall be provided opportunities to:

(A) understand how the government both protects and regulates the operations of the market system;
(B) examine the processes and consequences of the government's budget;
(C) examine the organization and functions of the Federal Reserve System;
(D) analyze the costs and benefits of government regulation of the market; and
(E) evaluate the economic performance of monetary and fiscal policies.

(3) American economic system and international economic relations. The student shall be provided opportunities to:

(A) compare various types of economic systems (capitalism, socialism, and communism); and
(B) examine the purposes, the extent, and the impact of world trade on the United States' economy.

(4) Consumer economics. The student shall be provided opportunities to:

(A) describe the rights and responsibilities of consumers;
(B) identify the market conditions and agencies that provide consumer protection;
(C) understand the use of credit and savings and how they affect the economy;
(D) define basic consumer terminology in the areas of credit, insurance, budgeting, and home ownership or leasing; and
(E) examine the income tax.

(5) Social studies attitudes, values, and skills for citizenship as appropriate to this course as described in §75.48(a) of this title (relating to Social Studies, Texas and United States History, grades seven-eight) are included by reference.

PHYSICAL SAFETY

	SOCIAL STUDIES	SCIENCE	HEALTH	TECHNICAL EDUCATION	HOME ECONOMICS
Practices and Rules of Safety • Demonstrate practices rules of safety to avoid injury and prevent accidents in the home, school, and community		• School Safety Rules (H, IPS, PS,IB,B,C,P) • Infectious Diseases (B,IB)	• School Safety Rules (H) • Infectious Diseases (H)	• School Safety Rules (T&I,TE)	• Home Safety Rules (CHE,PCD,ACD, FSN, • Safety Rules in Employment (AFSN,FPMS, ACD)
People Help Each Other to Be Safe • Discuss ways people can help each other to be safe in the home, school, and community		• School Personnel (IPS,PS,IB,B,C,P)	• Family Members (H)	• School Personnel (T&I,TE)	• Family Members (CHE,PCD,ACD, IFL,AFSN) • Employment (FPMS)
Civic Responsibilities Toward Safety • Recognize one's civic responsibilities toward safety rules and authority figures in home, school, and community	• Respecting and Supporting Laws of Society(GOV, W.HIST)		• Maintaining a Healthy Environment (H)	• Support State and National Laws (T&I,TE)	• Support State and National Laws (CHE,PCD,ACD, FPMS)

PSYCHOLOGICAL SAFETY

	SOCIAL STUDIES	SCIENCE	HEALTH	TECHNICAL EDUCATION	HOME ECONOMICS
Behavior and Consequences • Identify acceptable and unacceptable behavior and the consequences of one's actions	•Accepting Consequences of Decisions(W. HIST,ASSP,PSY, SOC)		• Recognizing Signs of Abusive Behavior (H)		• Accepting Consequences of Decisions and Behavior (CHE,PCD,ACD, IFL,AFSN,FPMS)
Developing a Positive Self Concept • Demonstrate a positive attitude toward self	• Demonstrating Respect for Self and Others (W. HIST,ASSP,PSY, SOC,GOV)		• Demonstrating Healthy Attitudes Toward Own Sexuality (H)		• Developing Self-awareness and Skills for Self-Direction (CHE,ACD,IFL, FSN)
Emotions and Their Effects • Describe various emotions and their effects on self, family, and others	• Dealing with Peer Pressure (PSY, SOC)		• Identifying Warning Signs of Suicide (H) • Distinguishing Between Positive and Negative Attitudes Toward Life(H) • Distinguishing Among Different Kinds of Love (H)		• Fostering Emotional and Social Development (CHE PCD,ACD,IFL)

SOCIAL STUDIES
PHYSICAL AND PSYCHOLOGICAL SAFETY

Attitudes/Values/Skills	GRADE 12
• Recognize that individuals must accept the consequences of their decisions	**United States Government** • Identify the purposes and impact of major political documents on the lives, rights, and responsibilities of individuals in the United States
• Respect the laws of one's society and work responsibly to change laws that one judges to be unjust	• Analyze specific Supreme Court decisions and explain how the due process of law protects individual rights in the United States
• Support the rules and laws of one's school, community, state, and nation	• Distinguish the factors that influence an individual's political beliefs and behavior
	• Support the concept that good citizenship in the United States is related to the Constitution system of laws and not to the interpretations of individual leaders
	Sociology • Explain aspects of culture including beliefs, mores, traditions, folkways and social problems

SCIENCE EDUCATION
PHYSICAL AND PSYCHOLOGICAL SAFETY

Grades 9-12
• Demonstrate proper laboratory procedures with emphasis on safety (lP, PS, IB, B, HB, C, HC,P, HP, PA, A, ES)
• Explains how the body defends itself against infectious diseases. (B)
• Relate the impact of AIDS on life in the United States.(B)
• Identify causative organisms, transmission symptoms, and prevention/treatment of human diseases. (B)

Course: Food Science and Nutrition

(i.3)(A) Apply principles of consumership. p. 35

(i.3)(C) Relate the effects of work space and equipment on meal preparation. p. 37

(i.3)(D) Apply safety and sanitation procedures in food preparation tasks. pp. 39-45

(i.2)(A) Compare cultural influences on individual and family food options. p. 26

Course: Individual and Family Life

(c.1)(A) Explain the basic functions of the family. pp. 1-2

(c.4)(C) Relate the use of community resources to family well-being. pp. 151-152

(c.5)(C) Determine components of responsible parenthood. p. 174

(c.6)(D) Describe domestic violence including causes, prevention, and coping resources. pp. 198-201

(c.2)(E) Investigate laws related to the family. p. 70

(c.3)(A) Summarize responsibilities of living as an independent adult. pp. 77-78

(c.6)(A) Discuss potential family problems and crises. pp. 187-189

(c.3)(A) Summarize responsibilities of living as an independent adult. pp. 73-76, 78-79

(c.3)(B) Demonstrate communication and conflict resolution skills. pp. 93-96

(c.3)(E) Describe the impact of cultural background on interpersonal behavior. pp. 105-108

(c.5)(A) Analyze factors affecting the decision to parent. pp. 167-169

(c.3)(A) Summarize responsibilities of living as an independent adult. pp. 79-80

Course: Parenting and Child Development

(d.2)(A) Summarize ways to promote physical development of children. pp.32, 34, 37

(d.2)(F) Explain methods of guidance and discipline. pp-54-64

(d.3)(H) Analyze alternatives for child care. pp. 83-84

(d.4)(A) Identify parenting behavior indicative of child abuse tendencies. pp. 87-88

(d.4)(B) Point out parenting behaviors abusive to children. pp. 89-90

(d.4)(C) Explain ways to meet needs of children in crisis. pp.91-97

(d.3)(A) Describe methods of sharing parental responsibilities. p. 68

(d. 3)(I) Outline local, state, and national resources focusing on children. pp. 84-85

(d.1)(A) Summarize the responsibilities of human sexuality. pp. 1-5

(d.1)(E) Analyze the impact of marital relationships on the children. p. 17

(d.2)(G) Determine techniques to promote character development. pp. 64-65

(d.8)(B) Project how one's present behavior impacts present goals. pp. 5-6

(d.2)(B) Describe the emotional and social development of children and techniques for fostering such development. pp. 38-44

Course: Comprehensive Home Economics

(b.3)(C) Apply basic clothing construction and/or alteration techniques. pp. 70, 72

(b.7)(B) Relate sanitation and safety to food and nutrition. pp. 143-146

(b.8)(B) Evaluate methods of meeting the safety needs of families. pp. 177-180

(b.1)(H) Describe the rights and responsibilities of family members and families. pp. 31-33

(b.2)(D) Summarize forms of child abuse, their causes, and methods of control. pp. 57-59

(b.1)(H) Describe the rights and responsibilities of family members and families. pp. 30-31

(b.8)(A) Summarize ways to promote individual and family health. p. 173-176

(b.1)(C) Analyze factors involved in socially responsible behavior. pp. 11-12

(b.1)(E) Apply strategies for managing peer pressure. pp. 20-22

(b.1)(F) Describe the functions of the family in meeting personal and societal needs. p. 24

(b.1)(G) Relate personal commitment to family strength and well-being. p. 26

(b.5)(E) Identify the decision-making steps, influences, and implications. pp. 109-112

(b.8)(C) Explain factors affecting individual family health decisions. pp. 180-193

(b.1)(A) Apply techniques to develop self-awareness and skills for self direction. pp. 1-4

(b.1)(B) Describe the physical, social, emotional, and intellectual development of teenagers. p. 4-7

(b.2)(A) Describe the basic needs of children. pp. 40-45

(b.2)(B) Describe the responsibilities of the caregiver in meeting developmental needs of children. pp. 45-53

(b.2)(C) Explain various methods of management and guidance. pp. 54-56

(b.1) (G) Relate personal commitment to family strength and well-being. p. 29

Course: Advanced Child Development

(e.3)(D) Identify developmentally appropriate sex-related information for children of different ages. pp. 69-70

(e.1)(A) Describe responsibilities of parenting. p. 2

(e.1)(D) Describe responsible behavior in prevention and control of disease. pp. 10-14

(e.2)(C) Identify neonatal care essential to the well-being of the child. p. 29-32

(e.4)(A) Describe guidance methods and factors influencing their effectiveness. p. 75

(e.5)(A) Discuss the effects parent/guardian employment has on the development of the child. p. 93

(e.5)(C) Discuss societal tends impacting children. pp. 103-104

(e.4)(B) Assess society's role in protecting the rights of children. pp. 85-86

(e.5)(B) Identify local, state, and national resources related to children. pp. 93-94

(e.5)(D) Summarize forms, causes, effects, prevention, and treatment of child abuse. pp.119-120

(e.2)(B) Outline the impact of genetics, environment, and mother's health on prenatal development. pp. 23-24

(e.3)(A) Explain various theories and principles of growth and development. pp. 37-40

(e.3)(B) Describe the interrelationships of social, emotional, intellectual, physical, and moral development of the child. pp. 61-64

(e.3)(F) Point out the impact of parenting/caregiver practices on a child's self-esteem. pp.72 74

Course: Advanced Food Science and Nutrition

(j.2)(B) Outline safety and sanitation practices considerations for food processing and packaging. pp. 26-27

(j.1)(E) Assess the safety factors of various intentional and incidental food additives. pp. 10-13

Course: Food Production, Management, and Services

(k.3)(B) Apply safety and sanitation techniques in food handling, preparation, service, storage, and cleanup.

(k.3)(D) Use large and small food service equipment as appropriate for prescribed tasks.

(k.3)(A) Apply federal, state, and local sanitation codes for food service establishments.

TECHNOLOGY EDUCATION
PHYSICAL AND PSYCHOLOGICAL SAFETY

Grades 9-12
• Identify concepts and skills related to safety and safe working conditions. (TE) (T&I)
• Demonstrate safe operations and use of selected tools and equipment to avoid injury. (TE) (T&I)
• Maintain safe conditions in the laboratory. (TE) (T&I)
• Select a commercially made product and prepare a maintenance program for it. (TE) (T&I)
• Investigate appropriate state and federal safety laws. (TE) (T&I)
• Prepare safety posters for the use of power tolls and equipment. (TE) (T&I)
• Demonstrate proper safety procedures. (TE) (T&I)

HEALTH
SAFETY

GRADE 9	GRADE 10	GRADE 11	GRADE 12
• Distinguish between positive and negative attitudes toward life			
• Distinguish among different kinds of love			
• Explain strategies for dealing with anger			
• Identify common warning signs of suicide			
• Demonstrate healthy attitudes toward one's own sexuality			
• Identify and understand signs of abusive behavior			
• Describe reasons for using, not using, and quitting alcohol and tobacco products			

PRACTICES AND RULES OF SAFETY	Resources: Instructional	Resources: Community
School Safety Rules		
ACTIVITY: Using materials safety data sheets (MSDS) transparencies of Benedict's Solution and sodium hydroxide, instruct students how to read and to interpret MSDS sheets. Have students complete student study guide sheets by working individually, in pairs, or in groups on sulfuric acid.		10
Assessment: Distribute an MSDS sheet on cupric sulfate and have students individually list the following information: a. formula, b. appearance, c. reactivity, d. health hazards, e. fire hazards, f. special precautions.		
(Essential Elements/Activities/Assessments: TE-75.50.5, 75.50.7B, 75.85.6, 75.85.6C)		
Home Safety Rules		
(Essential Elements/Activities/Assessments: HE-6.7B, CHE pp. 143-146; b.8B, CHE pp. 177-180; i.3D, FSN pp. 39-45; j. IE, AFSN pp. 10-13)		11
PEOPLE HELP EACH OTHER TO BE SAFE		
School Personnel		
ACTIVITY: In the annual staff development workshop on the Texas Hazard Communication Act, teachers will work in groups to interpret and use MSDS to read and interpret NFPA chemical labels and to state general safety procedures.		10
Assessment: Teachers will state the major features of the Texas Hazard Communications Act and provide evidence that the individual components are being implemented in their individual classrooms and laboratories.		
(Essential Elements/Activities/Assessments: TE-75.50.7A, TE-75.85.6)		
CIVIC RESPONSIBILITIES TOWARD SAFETY		
Respecting and Supporting Laws of Society		
(Local Objectives: SS-A.V.S. 1D, 2A-2L)		
ACTIVITY: As a class, prepare a list of community resource people whom students might interview regarding state and city government. Help students develop questions that will help them learn respect for law.		13
Assessment: Divide the class into groups of four. Tell members of each group to evaluate (validate or invalidate) each of the questions about respect for the law and tell why they selected the person they did.		
Support State and National Laws		
(Essential Elements/Activities/Assessments: HE-e.4B, PCD pp. 85-86; TE-75.86.6C)		13

PSYCHOLOGICAL SAFETY

BEHAVIOR AND CONSEQUENCES

	Resources	
	Instructional	Community
Accepting Consequences of Decisions		
(Local Objectives: Psychology B.6, B.7, Sociology B.3)		
ACTIVITY: This activity is an opportunity for group members to learn more about their own thoughts and feelings and to practice understanding the thoughts and feelings of others. Hint: The teacher can "prime the group" by preparing one or more members beforehand to be prepared to be the first volunteer to tell about their thoughts/feelings. Group members need to be trained both to analyze their feelings and to listen to others.	Argus-A division of DLM Communications-Lifetime (1975)	4 7 16
PROCEDURE: Seat students in a circle so that each person can see everyone else. Remind students of the basic rules. 1. No put downs, name callings, etc. 2. Each person has equal opportunity to talk if they wish 3. No interruptions and no one forced to talk		
Keep session short (10-20 min. per topic) and keep the discussion flowing. Do not let one or two students dominate. At the end of the sessions ask the following type of closure questions. 1. What did you learn from this session? 2. What did you notice during this session that was of special interest to you or that surprised you? 3. What did you learn about yourself or someone else you didn't know before? 4. How did you feel about sharing such thoughts/feelings? 5. In what way did this experience make you feel good? bad?		
TOPICS 1. Something New or Good in My Life 2. One of the Nicest Things That Ever Happened to Me 3. Something I Enjoy Doing That I Do Well 4. Something I Think Is Beautiful 5. A Time I Trusted My Feelings/Instincts 6. A Time I Felt Sad 7. A Time I Was Very Angry 8. A Time I Was Embarrassed 9. Something I Like and Don't Like or About Which I Feel Good and Bad 10. A Time I Helped Someone or Did Something Nice for Someone 11. Remembering a Special Time and What Made It Special (Who Was There? What Were the Surroundings? What Happened?)		
Assessment: Have students answer the following question: How do feelings of anger affect dealing with other people?		
Recognizing Signs of Abusive Behavior		
(Local Objective: H-B.10)		
ACTIVITY: Discuss the physical, verbal, emotional, and sexual forms of abusive behavior which a child may experience, as well as the variety of physical and behavioral symptoms that abused children may exhibit.	Houghton Mifflin *Human Sexuality*, pp. 141-142	7 4 19 22

	Resources	
	Instructional	Community
Assessment: Have students draw three columns on a sheet of paper. Have them label the three columns "Behavioral," "Emotional," and "Physical." Students are to describe four signs of abuse in each of the three columns.	Houghton Mifflin *Health*, p. 296	

Accepting Consequences of Behavior

(Essential Elements/Activities/Assessments: HE-e.1D, ACD pp. 10-14; b. 1D, CHE pp. 7-10; c.3B, ACD pp. 93-96; d.8B, PCD pp. 5-6)

4
6
7

DEVELOPING A POSITIVE SELF-CONCEPT

Demonstrating Respect for Self and Others

(Local Objectives: Sociology B.2, B.3; Psychology B.6)

16
18
21

ACTIVITY: The teacher gives each student three activity sheets (see Handouts #1, 2, 3) allowing ten minutes for completion. When all of the students have finished, the teacher will prompt the students share their answers. For example: "Jim, can you share with the group some of the words you choose for What Are you like. Sue, what were some important items you identified on "What's Important to You? What items were not important to you? If possible, all students should be encouraged to share their answers.

Assessment: Have the students write the answers to these questions:

1. List five things that you feel would best describe you as a person.
2. List the items that you had difficulty answering. Why?

ACTIVITY:

1. Distribute one lemon to each student. Direct each student to examine his/her lemon carefully by rolling it, squeezing it, fondling it, inspecting it, etc. Ask them "to get to know their lemon" and select a name for it. Encourage them to identify in their minds the strengths and weaknesses of their lemon.
2. Collect all the lemons and visibly mix them up in front of the group.
3. Spread out all the lemons on a table and ask all students to come forward and select their original lemon. If conflicts develop over their choices, assist the parties in reconciling their differences, or simply note the failure to agree and use that as a basis for later discussion.

Discussion Questions:

1. How many are very sure they reclaimed their original lemon? How do you know?
2. What parallels are there between differentiating many lemons and differentiating many people? What differences are there?
3. Why can't we get to know people just as rapidly as we did the lemons? What role does the skin play (for lemons and for people)?

	Resources	
	Instructional	Community
Assessment: Have students write answers to the following questions: 1. What principles of human behavior does this bring to light? 2. Why is self-examination usually more difficult than evaluation of others?		
Developing Healthy Attitudes Toward One's Own Sexuality		
(Local Objective H-B.9)		
ACTIVITY: Guide students in a discussion on developing self-esteem and taking control of their own lives when dealing with human sexuality. Have students write a list of behaviors that relate to the development of a sexual being, such as dating and selecting appropriate wearing attire. Discuss with students some of these behaviors and whether the behaviors contribute to the development of healthy and positive attitudes.	Houghton Mifflin *Health*, Chs. 5 and 15	6 7 9 12
Assessment: Have students write a sexual profile of themselves, including the following information: traits which may be considered as unique to themselves, influences that have helped them to develop a positive sexual self-concept, and steps which they can take to continue developing healthy attitudes toward their own sexuality. Ask for volunteers to share their profiles with the class.		
Developing Self-Awareness and Skills for Self-Direction		
(Essential Elements/Activities/Assessments: HE-d.2 G, PCD pp. 64-65; b.1A, CHE pp. 1-4; b-1 B, CHE pp. 4-7; d.2B, PCD pp. 38-44)		16 20
EMOTIONS AND THEIR EFFECTS		
Dealing with Peer Pressure		
(Local Objectives: Psychology B.6)		
ACTIVITY: Most of us have been brought up to believe that it is not "right" to say nice things about one's self or others. This activity attempts to change that attitude by having teams of two students share some personal qualities with one another. In this exercise, each person provides his or her partner with the response to one, two, or all three of the following suggested dimensions. 1. Two *physical attributes* I like in myself 2. Two *personality qualities* I like in myself 3. One *talent* or *skill* I like in myself Explain that each comment must be a positive one. No negative comments are allowed! (Since most students will not have experienced such a positive encounter, it may take some gentle nudging on your part to get them started.)		4 16 20 21
Discussion Questions: 1. On hearing the assignment, how many of you smiled slightly, looked at your partner, and said, "You go first"? 2. Did you find this to be a difficult assignment to start? 3. How do you feel about it now?		

	Resources	
	Instructional	Community
Assessment: Have students answers to the following questions: 1. What other positive attributes or qualities could be included in this activity? 2. Why is it difficult for us to say positive things about ourselves?		
ACTIVITY: Pass out four 3 x 8 strips of paper to each student. Write four stems on the board or call out one at a time. Give class a very limited amount of time to answer the four questions (2-3 minutes, 30-45 seconds per question). 1. I feel angry when others ..... 2. I think my anger is ..... 3. When others express anger towards me, I ..... 4. I think that the anger of others ..... After all students have answered the questions, have them tape answers to their chest, their backs, their desk, or the wall. Process this experience in small groups of 8-10 per group. Appoint group moderators to be sure all have an opportunity for "air time." During the group process, encourage students to recognize that people express anger in different ways, experience the anger of others differently, and have different feelings and ideas about anger (or any other emotion).	Argus-A Division of DLM Communications Lifeline (1975)	
Assessment: Have students answer the following question: How do people express anger in different ways?		
Distinguishing Between Positive and Negative Attitudes Toward Life		
(Local Objective: H-B.3)		
ACTIVITY: Divide the class into two groups. Have one group develop a list of examples that indicate a positive attitude toward life. Have the other group develop a list of examples that indicate a negative attitude toward life.	Houghton Mifflin *Health*, pp. 74-75	6 9 12 14 17
Assessment: Have each group present a report to the class. Have students add items to both lists and discuss those items where there are differences of opinions.		
Distinguishing Among Different Kinds of Love		
(Local Objective: H -B.5)		
ACTIVITY: Discuss with students the concept that love can be communicated in many different ways. Just as love is expressed in many ways, there are also several types of love. Discuss love for a friend, family love, love in marriage, love of country, and love for humanity. Emphasize how these types of love differ from each other.	Houghton Mifflin *Health*, pp. 80-81	12 14 17
Assessment: Have students write a one-page report on "The Loves of My Life." Three types of love must be included in the report, as well as an explanation as to how each love is different from the others. Students may volunteer to share their reports with the class or in small groups.		
Fostering Emotional and Social Development

INSTRUCTIONAL STRATEGIES

"Many instructional models have been developed for educating our youth. Instructional methods should provide opportunities for the students to organize their ideas in ways meaningful to them. We recognize that a variety of instructional methods is appropriate. Certain methods may be effective for developing skills, while another method may be more effective for higher level thought. Variety in instructional methods has been shown to be crucially important."
--Grayson H. Wheatley

Students Generally Remember:

10% of what they READ
20% of what they HEAR
30% of what they SEE
40% of what they HEAR & SEE
70% of what they SAY
90% of what they SAY as they Do

CREATIVE THINKING

TEACHING STRATEGIES

for Cueing THINKING in the CLASSROOM

"Strategy 1"

Think-Pair-Share

Think-Pair-Share is a multimode discussion cycle in which students listen to a question or presentation, have time to "think" individually, talk with each other in "pairs" and finally "share" responses with the larger group. The teacher signals students to switch from "listen" to "think" to "pair" to "share" by using cues (fig. 1).

Students raise their hands only on signals, *not* directly after the question or a response. Students may write or diagram their thoughts. In this activity, teachers also give cues on options for "how" students are to think or work in pairs. For instance, teachers may cue the students to reach concensus, engage in problem solving, or assume the role of devil's advocate (fig. 2).

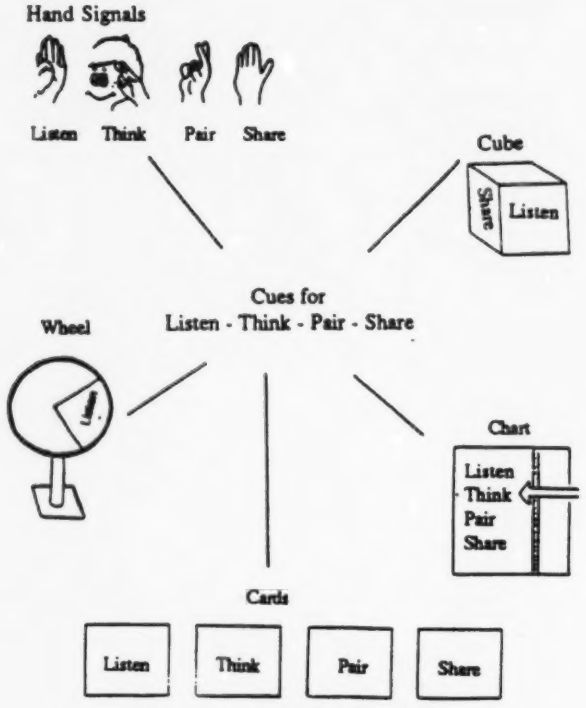

Fig. 1. Cues for Think-Pair-Share

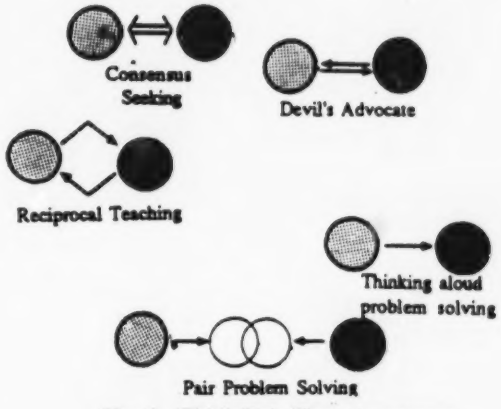

Fig. 2. Think-Pair-Share Structures

"Strategy 2"

Reading Reference Bookmark

While you read--
Tell
yourself what the author says.
Ask
yourself if what you are reading makes sense.
Picture
what the author describes.
Identify
the main ideas.
Predict
what will come next.

If you don't understand--
Identify
the problem.
Remind
yourself of what you want to find out.
Look Back.
Look Ahead.
Slow Down.
Ask
for help.

After you read--
Retell
what you read in your own words.
Summarize
the most important ideas.
Ask
yourself questions and answer them.
Picture
in your mind what the author described.
Decide
what was especially interesting or enjoyable.

Ready Reading Reference

If one analyzes the differences between good and poor readers, the importance of the strategic behaviors that good readers spontaneously employ before, during, and after their reading would be obvious.

The Ready Reading Reference bookmark was developed to summarize knowledge about "good reader" strategies. The bookmark serves as a tangible instructional tool and a concrete cue for students during independent reading.

These instructional tools can easily be made for classroom use and adapted to the appropriate grade.

Reprinted with permission of Jay McTighe, Education Specialist, Maryland State Department of Education.

"Strategy 3"

Questioning/Discussion Strategies Bookmark

Teachers can integrate effective questioning and discussion strategies into their daily repertoires by referring to a "cueing" bookmark which features question starters on one side and discussion strategies on the other. *During classroom discussion, the bookmark reminds teachers to use these promising strategies .*

Front

Questioning for Quality Thinking

Acknowledge—Identification and recall of information
who, what, when, where, how_____?
Describe _____

Comprehension—Organization and selection of facts and ideas
Tell_____in your own words.
What is the main idea of _____?

Application—Use of facts, rules, principles
Now is _____an example of _____?
Now is _____related to _____?
Why is _____significant?

Analysis—Separation of a whole into component parts
What are the parts or features of _____?
Classify _____according to _____.
Outline/diagram/web_____.
How does ___ compare/contrast with _____?
What evidence can you list for _____?

Synthesis—Combination of ideas to form a whole
What would you predict/infer from _____?
What ideas can you add to _____?
How would you create/design a new _____?
What might happen if you combined _____
with _____?
What solutions would you suggest for _____?

Evaluation—Development of opinions, judgments, or decisions
Do you agree _____?
What do you think about _____?
What is the most important _____?
Prioritize _____.
How would you decide about _____?
What criteria would you use to assess _____?

Back

Strategies to Extend Student Thinking

- **Remember "wait time I and II"**
  Provides at least three seconds of thinking time after a question and after a response
- **Utilize "think-pair-share"**
  Allow individual thinking time, discussion with a partner, and then open up the class discussion
- **Ask "follow-ups"**
  Why? Do you agree? Can you elaborate? Tell me more. Can you give an example?
- **Withold judgment**
  Respond to student answers in a non-evaluative fashion
- **Ask for summary (to promote active listening)**
  "Could you please summarize John's point?"
- **Survey the class**
  "How many people agree with the author's point of view?" ("thumbs up, thumbs down")
- **Allow for student calling**
  "Richard, will you please call on someone else to respond?"
- **Play devil's advocate**
  Require students to defend their reasoning against different points of view
- **Ask students to "unpack their thinking"**
  "Describe how you arrived at your answer." ("think aloud")
- **Call on students randomly**
  Not just those with raised hands
- **Student questioning**
  Let the students develop their own questions
- **Cue student responses**
  "There is not a single correct answer for this question. I want you to consider alternatives."

Cueing Bookmark

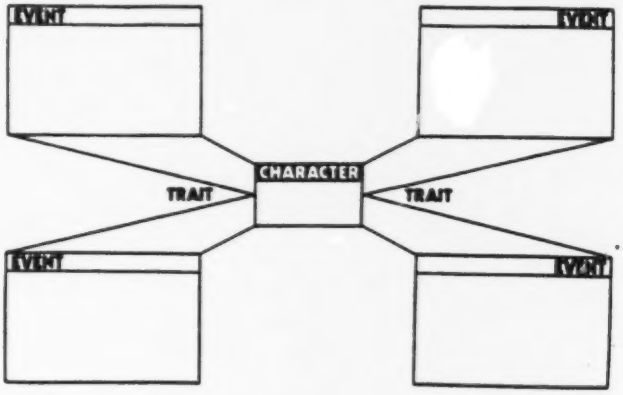
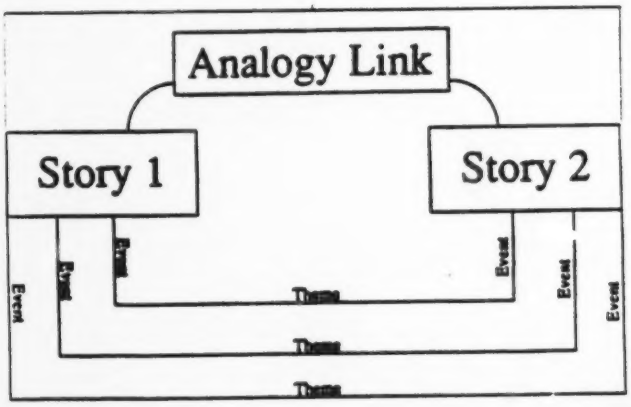
"Strategy 4"

Cognitive Mapping

Cognitive maps are effective tools for helping students improve their organizational abilities. These provide a visual, holistic representation of facts and concepts and their relationships within an organizational framework. They help students to 1) represent abstract or implicit information in more concrete form 2) depict the relationships among facts and concepts 3) generate and elaborate ideas; 4) relate new information to prior knowledge and 5) store and retrieve information. These cognitive maps become blueprints for oral discourse and written composition.



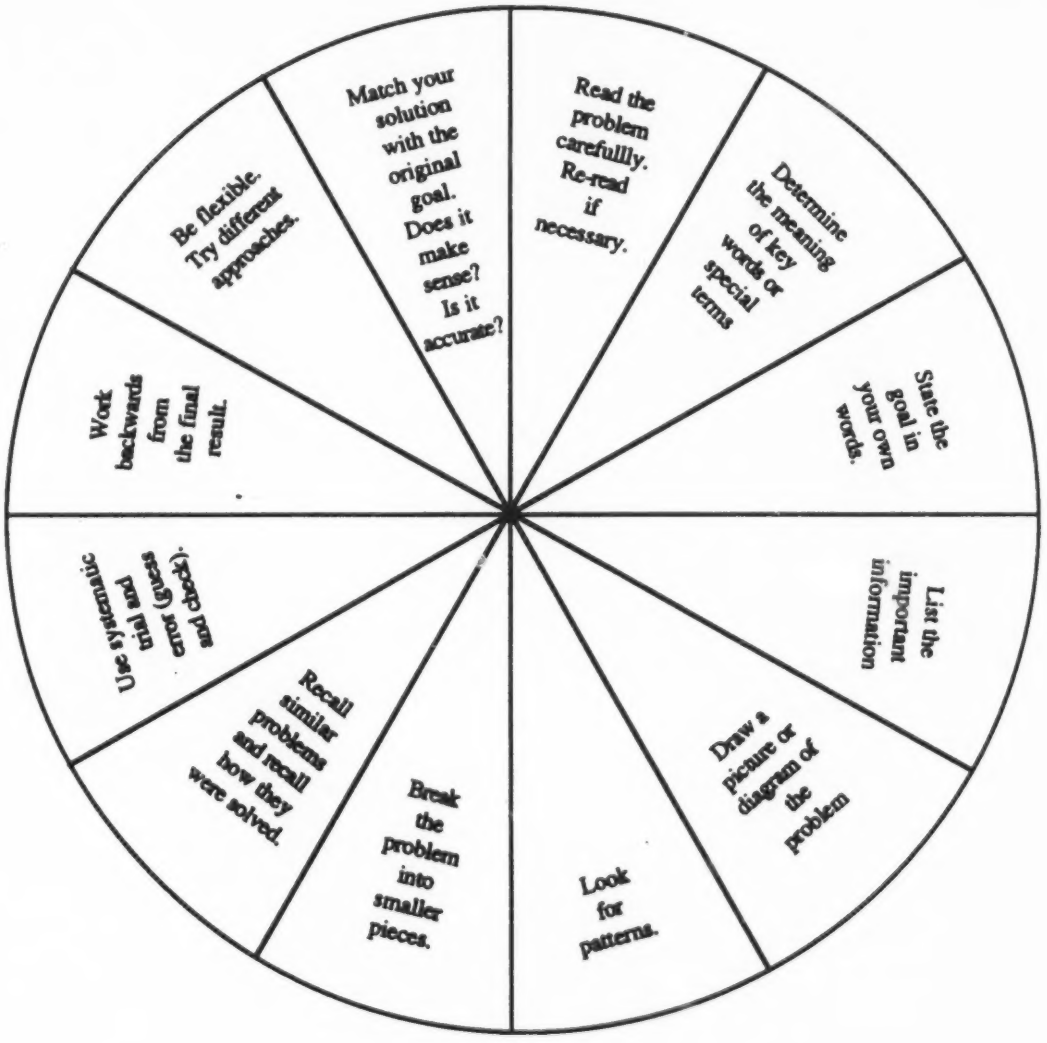


Reprinted with permission of Jay McTighe, Education Specialist, Maryland State Department of Education.

"Strategy 5"

Problem-Solving Strategies Wheel

Teachers who wish to improve student problem solving can spend classroom time examining the solution "process" along with the final answer, model their own strategic reasoning by "thinking aloud," and provide explicit instruction in problem-solving heuristics, using a *Problem Solving Strategies Wheel*. Teachers should project the wheel on a transparency or draw a wheel on a large piece of posterboard, thereby making it an instructional tool that reminds teachers and students of the strategies of the experts.



Read the problem carefullly. Re-read if necessary.
Determine the meaning of key words or special terms
State the goal in your own words.
List the important information
Draw a picture or diagram of the problem
Look for patterns.
Break the problem into smaller pieces.
Recall similar problems and recall how they were solved.
Use systematic trial and error (guess and check).
Work backwards from the final result.
Be flexible. Try different approaches.
Match your solution with the original goal. Does it make sense? Is it accurate?

Transparency

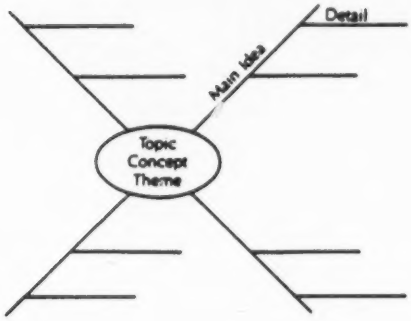
GRAPHIC ORGANIZERS

Graphic representations are visual illustrations of verbal statements. Frames are sets of questions or categories that are fundamental to understanding a given [illegible] are shown nine "generic" graphic forms with their corresponding frames. Also given are examples of topics that could be represented [illegible] each graphic form. These graphics show at a glance the key parts of the whole and their relations, helping the learner to comprehend [illegible] and solve problems.

Spider Map



Used to describe a central idea: a thing (a geographic region), process (meiosis), concept (altruism), or proposition with support (experimental drugs should be available to AIDS victims). Key frame questions: What is the central idea? What are its attributes? What are its functions?

Continuum/Scale

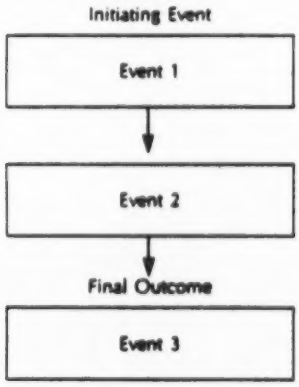
Used for time lines showing historical events or ages (grade levels in school), degrees of something (weight), shades of meaning (Likert scales), or ratings scales (achievement in school). Key frame questions: What is being scaled? What are the end points?

Compare/Contrast Matrix

	Name 1	Name 2
Attribute 1		
Attribute 2		
Attribute 3		

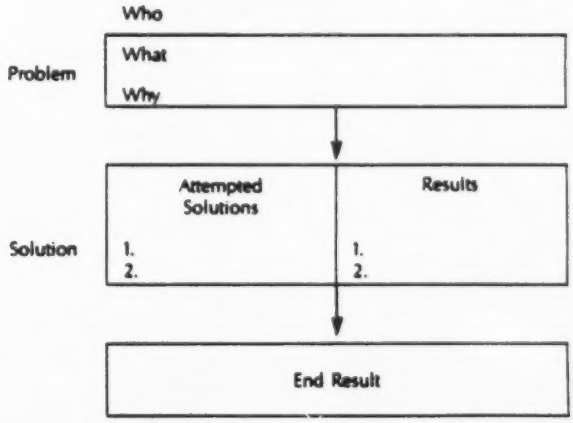
Used to show similarities and differences between two things (people, places, events, ideas, etc.). Key frame questions: What things are being compared? How are they similar? How are they different?

Series of Events Chain



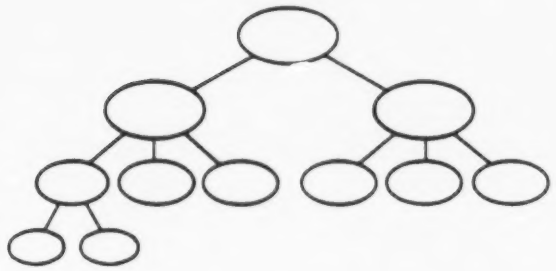
Used to describe the stages of something (the life cycle of a primate); the steps in a linear procedure (how to neutralize an acid); a sequence of events (how feudalism led to the formation of nation states); or the goals, actions, and outcomes of a historical figure or character in a novel (the rise and fall of Napoleon). Key frame questions: What is the object, procedure, or initiating event? What are the stages or steps? How do they lead to one another? What is the final outcome?

Problem/Solution Outline



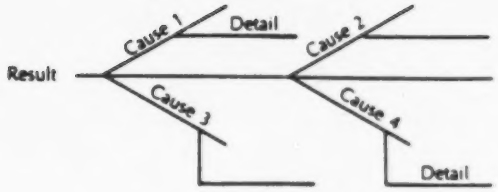
Used to represent a problem, attempted solutions, and results (the national debt). Key frame questions: What was the problem? Who had the problem? Why was it a problem? What attempts were made to solve the problem? Did those attempts succeed?

Network Tree



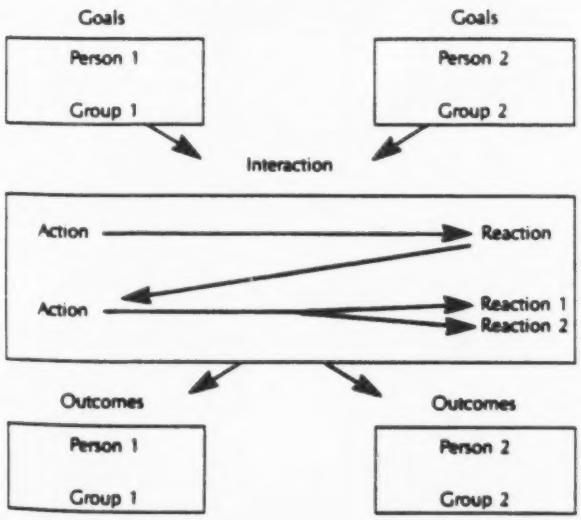
Used to show causal information (causes of poverty), a hierarchy (types of insects), or branching procedures (the circulatory system). Key frame questions: What is the superordinate category? What are the subordinate categories? How are they related? How many levels are there?

Fishbone Map



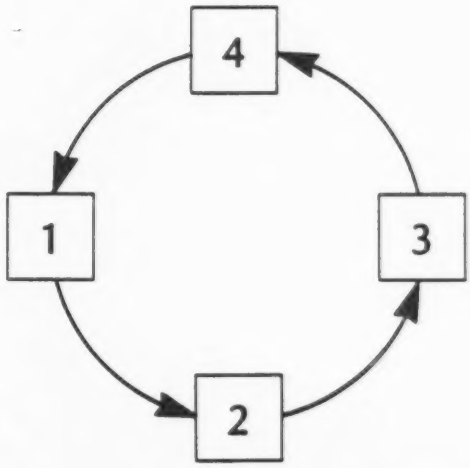
Used to show the causal interaction of a complex event (an election, a nuclear explosion) or complex phenomenon (juvenile delinquency, learning disabilities). Key frame questions: What are the factors that cause X? How do they interrelate? Are the factors that cause X the same as those that cause X to persist?

Human Interaction Outline



Used to show the nature of an interaction between persons or groups (European settlers and American Indians). Key frame questions: Who are the persons or groups? What were their goals? Did they conflict or cooperate? What was the outcome for each person or group?

Cycle



Used to show how a series of events interact to produce a set of results again and again (weather phenomena, cycles of achievement and failure, the life cycle). Key frame questions: What are the critical events in the cycle? How are they related? In what ways are they self-reinforcing?

b

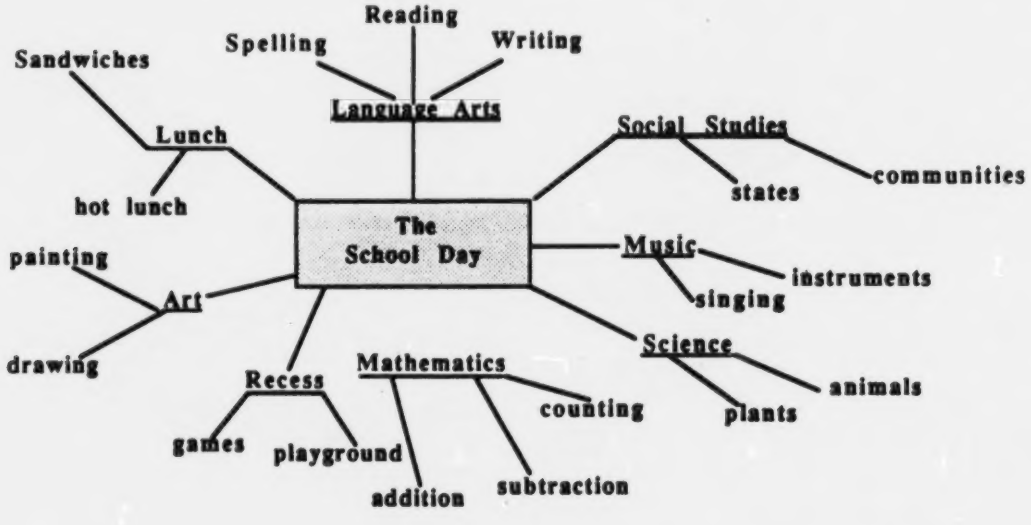
Printed with permission of Dr. Beau Fly Jones, North Central Regional Educational Laboratory, 1988.

WEBBING

WEBBING is a method of brainstorming or generating ideas on a given topic in which connections among related ideas are shown. By doing a webbing activity, a teacher can determine what the class knows about a certain subject.

PROCESS STEPS:

1. **Choose a major topic.**
2. **Divide the topic into subtopics.**
3. **Show connections between related ideas.**



Reprinted with Permission from *ABC's of Thinking with Caldecott Books*, p. 102, Copyright 1988 Book Lures, Inc.

DECISION MAKING

DECISION MAKING is a process leading to the selection of one of several options after consideration of facts, ideas, possible alternatives, probable consequences, and personal values.

PROCESS STEPS:

1. **Identify the problem.**
2. **Think of alternative solutions.**
3. **Establish criteria for weighing each alternative.**
4. **Weigh the alternatives on the basis of the criteria.**
5. **Choose the alternative which is rated best.**
6. **Give reasons for your choice.**

CRITERIA

SOLUTIONS	Easy to make and take	Good for you	Tastes good
Popcorn			
Cup cakes			
Apples

Copyright 1988 Book Lures, Inc.

TASK ANALYSIS

TASK ANALYSIS is a system for breaking down a task into fundamental skills and subskills. The first step is to define the final performance goal and then to list the skills necessary to attain that goal. This skill is fundamental in problem-solving activities.

PROCESS STEPS:

1. **Define the final performance goal.**
2. **List the steps and skills necessary to reach that goal.**
3. **Follow the steps to determine if they produce the goal.**

BRAINSTORMING

The Goal of Brainstorming is to:

1. **PRODUCE MANY RESPONSES**
2. **ACCEPT ALL RESPONSES**
3. **WITHHOLD PRAISE OR JUDGMENT OF ANY SINGLE RESPONSE GIVEN**
4. **PROVIDE AN ACCEPTING ATMOSPHERE**
5. **HITCHHIKE ON EACH OTHER'S IDEAS**
6. **AIM FOR QUANTITY—NOT ALL RESPONSES WILL BE OF HIGH QUALITY**

GENERALIZATION

A **GENERALIZATION** is a rule, principle, or formula that governs or explains a number of related situations.

PROCESS STEPS:

1. **Collect, organize, and examine the material.**
2. **Identify the common characteristics.**
3. **Make and state a generalization based on the common characteristics.**
4. **Find other instances in which the generalization is true.**
5. **Try to transfer the generalization to other situations or uses.**

ANALOGY

An **ANALOGY** is a comparison which points out similarities between two things that might be different in all other respects or circumstances.
Example: Shoe is to foot as mitten is to (hand).
Nose is to smell as ear is to (hear).

PROCESS STEPS:

1. **Select items that are to be compared.**
2. **Identify the common clues in the items.**
3. **Determine how the first two items are related.**
4. **Complete the analogy by choosing the item that relates to the third item in the same way.**

Reprinted with Permission from *ABC's of Thinking with Caldecott Books*, p. 24
Copyright 1988 Book Lures, Inc.

CREATIVE THINKING STRATEGIES

FLUENCY

FLUENCY is the ability to produce common responses to a given situation. The emphasis is on quantity rather than on quality. The intent is to build a large store of information or material for further, selective use.

PROCESS STEPS:

1. **Define the situation and determine the category.**
2. **Ask the students for many responses.**
3. **Follow brainstorming rules.**
4. **List all ideas given.**

FLEXIBILITY

FLEXIBILITY is the ability to respond in a variety of categories, to group responses into new uses for familiar objects or situations. Flexibility requires thinking beyond the usual and obvious to the new and original. In the story of the OX-CART MAN, who would expect the farmer to sell his boxes, his ox-cart, his ox, and the ox's yoke and harness, walk home, and begin over again? As with flexibility, the best responses require time to develop. Students need time to incubate the best ideas.

PROCESS STEPS:

1. **Identify the information to be used.**
2. **Examine the items to be used.**
3. **Identify many categories for the material.**
4. **Respond with new and creative categories or uses.**

ORIGINALITY

ORIGINALITY is the ability to generate novel, nontraditional, or unexpected ideas and to interpret these ideas in clever, unique products.

PROCESS STEPS:

1. **Determine and define the situation.**
2. **Ask for original, unique ideas.**
3. **Provide products for sharing the original idea.**

ELABORATION

ELABORATION is the process of adding details to an existing product. Introduce the story by discussing stories of fairies, princesses, knights, kings, and dragons. Help the students elaborate on the basic design of a dinosaur to create a dragon.

PROCESS STEPS:

1. **Examine the basic idea or object to be changed or improved by elaboration.**
2. **Define the basic idea.**
3. **Decide how to add to or expand on the basic idea to make it more interesting or complete.**
4. **Add details to develop a more interesting or useful idea.**

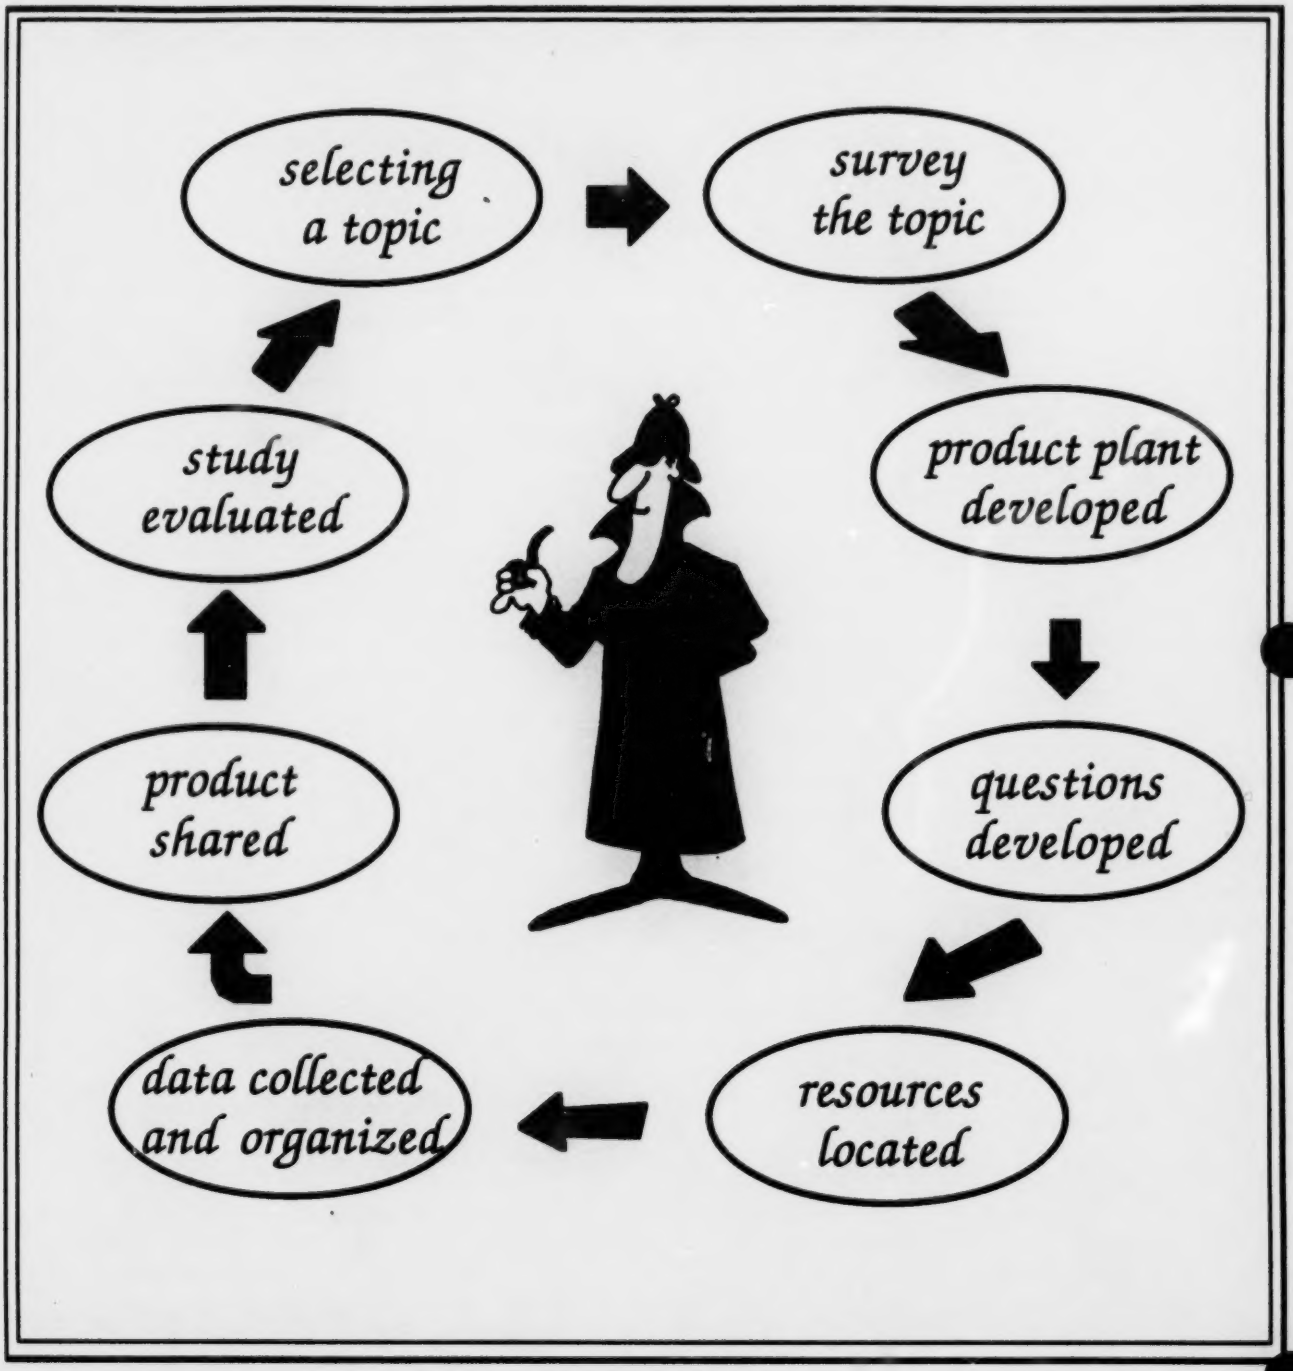
DISCOVERY

DISCOVERY is a method of teaching the processes of science or problem solving in which the teacher silently conducts the demonstration and the students attempt to determine why what is shown occurs.

PROCESS STEPS:

1. **Silently show the demonstration after telling the group to watch carefully and challenging them to try to determine why what they see occurs.**
2. **Collect observations on the chalkboard.**
3. **Have the class ask questions that can be answered by yes or no in order to obtain information to supplement their observations.**
4. **Ask if there are any operational questions that could be investigated or other demonstrations that need to be done in order to supply more information. Allow time to investigate or to perform the desired demonstrations.**
5. **Collect on the chalkboard those points or factors that the class deems important to the problem solution.**
6. **Call for a solution, or multiple solutions, to the problem. Children should not only present their solutions but also present supporting evidence from the problem-solving session.**

THE INDEPENDENT STUDY MODEL

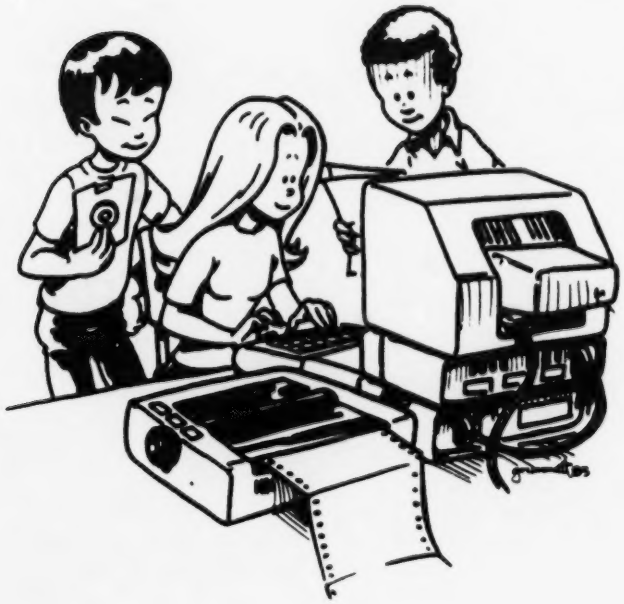


Reprinted with permission from *ABC's of Thinking with Caldecott* Books, p. 24.
Copyright 1988, Book Lures, Inc.

COOPERATIVE LEARNING

Cooperative learning is a systematic model for teaching content while having students practice skills necessary for effective group work. The basic principles of cooperative learning are:

1. **Face-to-face interaction**
2. **Individual accountability**
3. **Positive interdependence**
4. **Social skills**
5. **Group processing**



QUICK COOPERATIVE STARTERS

Learning Partners: Ask the students to turn to a neighbor and ask him/her something about the lesson, to explain a concept you've just taught, to explain the assignment, to explain how to do what you've just taught, to summarize the three most important points of the discussion, or whatever fits the lesson.

Reading Groups: Students read material together and answer the questions. One person is the Reader, another the Recorder, and the third the Checker (who checks to make certain everyone understands, agrees with, and can explain the answers). They must come up with three possible answers to each question and circle their favorite one. When finished, they sign the paper to certify that they all understand, agree on, and can explain the answers.

Bookends: Before a film, lecture, or a reading, have students summarize together what they already know about the subject and come up with questions they have about it. Afterwards, the trios answer questions, discuss new information, and formulate new questions.

Jigsaw: Each person reads and studies part of a selection with a partner, practices teaching the section with a new partner (student studying same section from another group), then teaches what he or she has learned to the other members of the group. Each then quizzes the group members until satisfied that everyone knows all parts thoroughly.

Drill Partners: Have students drill each other on the facts they need to know until they are certain both partners know and can remember them all. This works for spelling, vocabulary, math, grammar, test review, etc. Give bonus points on the test if all members score above a certain percentage.

Reading Buddies: In lower grades, have students read their stories to each other, getting help with words and discussing content with their partners. In upper grades, have students tell about their books and read their favorite parts to each other.

Worksheet Checkmates: Have two students, each with different jobs, do one worksheet. The Teacher reads, then suggests an answer; the Writer either agrees or comes up with another answer. When they both understand and agree on an answer, the Writer can write it.

Homework Checkers: Have students compare homework answers, discuss any they have not answered similarly, then correct their papers and add the reason they changed an answer. Make certain everyone's answers agree, then staple the papers together. Grade one paper from each group and give group members that grade.

Test Reviewers: Have students prepare each other for a test. They get bonus points if every group member scores above a preset level.

Composition Pairs: Student A explains what she/he plans to write to Student B, while Student B takes notes or makes an outline. Together they plan the opening or the thesis statement. Then Student B explains while Student A writes. They exchange outlines and use them in writing their papers.

Problem Solvers: Give groups a problem to solve. Each student must contribute part of the solution. Groups can decide who does what, but they must show where all members contributed. Or, they can decide together, but each must be able to explain how to solve the problem.

Computer Groups: Students work together on the computer. They must agree on the input before it is typed in. One person is the Keyboard Operator, another the Monitor Reader, a third the Verifier (who collects opinions on the input from the other two and makes the final decision). Roles are rotated daily so everyone gets experience at all three jobs.

Book Report Pairs: Students interview each other on the books they read, then they report on their partner's book.

Writing Response Groups: Students read and respond to each other's papers three times:

1. They mark what they like with a star and put a question mark anywhere there is something they don't understand or think is weak. Then they discuss the paper as a whole with the writer.

2. They mark problems with grammar usage, punctuation, spelling, or format and discuss it with the author.

3. They proofread the final draft and point out any errors for the author to correct.

Teachers can assign questions for students to answer about their group members' papers to help them focus on certain problems or skills.

Report Groups: Students research a topic together. Each one is responsible for checking at least one different source and writing at least three notecards of information. They write the report together; each person is responsible for seeing that his/her information is included. For oral reports, each must take a part and help others rehearse until they are at ease.

Summary Pairs: Have students alternate reading and orally summarizing paragraphs. One reads and summarizes while the other checks the paragraph for accuracy and adds anything left out. They alternate roles with each paragraph.

Elaborating and Relating Pairs: Have students elaborate on what they are reading and learning by relating it to what they already know about the subject. This can be done before and after reading a selection, listening to a lecture, or seeing a film.

Circles of Learning

Johnson, D,. W., Johnson, R. T., & Holubee, E. (EDS., 1988), *Cooperation in the Classroom* (revised ed.). Edina, MN: Interaction Book Company.

PROBLEM-SOLVING SEQUENCE

by L. S. Shulman

1. **Problem sensing,** in which a person initially detects, to his discomfort, that some kind of problem or incongruity exists.

2. **Problem formulating,** wherein the person subjectively defines a particular problem and develops his own anticipated form of solution.

3. **Searching,** in which the individual questions, hypothesizes, gathers information, and occasionally backtracks.

4. **Problem resolving,** the final phase in which the person becomes satisfied that he has solved the problem or "found out why," thus removing the disequilibrium.

PROBLEM-SOLVING HEURISTICS

by Stephen Krulik and Jesse Rudnick

1. **Read**

   1a. Note key words.
   1b. Get to know the problem setting.
   1c. What is being asked for.
   1d. Restate the problem in your own words.

2. **Explore**

   2a. Draw a diagram, or construct a model.
   2b. Make a chart. Record the data.
   2c. Look for patterns.

3. **Select a Strategy**

   3a. Experiment
   3b. Look for a simpler problem.
   3c. Conjecture/guess.
   3d. Form a tentative hypothesis.
   3e. Assume a solution.

4. **Solve**

   4a. Carry through your strategy.

5. **Review and Extend**

   5a. Verify your answer.
   5b. Look for interesting variations on the original problem.

INSTRUCTIONAL PLANNING MODELS

The key to successful teaching is good planning. There is no substitute for it. Good planning helps create correct discipline, pleasant atmosphere in the class, and puposeful activity free from dead spots and waste motion—in short, good planning promotes worthwhile learning. No one can teach well for long without planning well.

—Leonard H. Clark

PLANNING MODEL

UNIT/MAJOR OBJECTIVE

Compare and contrast life in the various American Colonies

OBJECTIVES

1. Describe the influence of geography, government, and religion on the growth and development of the New England Colonies.
2. Describe the influence of geography, government, and significant persons and groups on growth and development of the Middle Colonies.
3. Describe the influence of geography, economics, and slavery on growth and development of the Southern Colonies.

ASSESSMENT TYPES

Assessment Type # 1

Using the map, label the Middle Colonies, their major cities, and bodies of water.

Assessment Type # 2

Writing Assignment: Discuss at least three examples of how geography affected growth and development of the Middle Colonies. Be sure to elaborate on your examples.

Assessment Type #3

Divide students into six groups. From a list of individuals and groups who influenced development of the Middle Colonies, each group will select a subject for research and organize the information collected. Research reports will be presented orally. (Information maps could be presented on charts or as mobiles.)

Dutch Settlers

Ben Franklin

Other Assessment Types

- Individual Student Projects
- Teacher Observations
- Independent Research
- Other products such as murals, timelines, and models

PLANNING MODEL

UNIT/MAJOR OBJECTIVE

Compare and contrast life in the American Colonies

OBJECTIVES

1. Describe the influence of geography, government, and religion on the growth and development of the New England Colonies.
2. Describe the influence of geography, government, and significant persons and groups on growth and development of the Middle Colonies.
3. Describe the influence of geography, economics, and slavery on growth and development of the Southern Colonies.

INSTRUCTIONAL ACTIVITIES

Instructional Activity # 1

Using a wall map, locate the Middle Colonies. As each colony is located, ask students to discuss the following:

- How did geography affect development?
- What were the major cities and resources?
- What groups settled in the colony?
- Describe what social life was like and how it was influenced by geographic factors (e.g., weather, natural resources, proximity to other colonies)

Instructional Activity # 2

Divide class into four groups. Assign each group one of the Middle Colonies. Have them imagine they are proprietors and must decide on five laws they will make for their colonies. Students will publish their "charters" and be able to discuss the rationale for their charter and the similarities and differences among all of the charters.

Instructional Activity #3

As the teacher delivers a mini lecture, students will take notes by completing the matrix outline. Students will discuss any noted similarities and differences among the geography, government, and significant persons and groups in each colony.

Colonies	Geog	Govt	Sig. Group	Sig Persons
PA				
NY				
NJ				
DEL				

Other Instructional Activities

- Field trips to local museums to examine artifacts and original sources
- Small cooperative discussion groups
- Interrupted film technique with guided discussion
- Review and discussion of Colonial literature
